Surgical Tapes

A “silk-like” tape with a latex-free, hypoallergenic adhesive that offers high strength and adhesion. It adheres well to dry skin.

- High strength for durability
- Adheres well to dry skin
- Comfortable
- Latex-free and hypoallergenic for sensitive patients
- Convenient bi-directional tear for easy tailoring
- Versatile
- Water Resistant

Suggested Applications

✓Securing tubing and devices ✓Anchoring bulky dressings ✓Immobilizing fingers & toes ✓Stabilizing finger splints

• 20000 3M DURAPORE SILKTAPE 1½X10 -1538-0

Durapore Silk-like, hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 1/2” x 10 yard Metric: 1.25cm x 9.14m	1 roll 24 roll/ box 10 box/case

• 20001 3M DURAPORE SILKTAPE 12X10Y

Durapore Silk-like, hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 12” x 10 yard Metric: 30.48cm x 9.14m	1/2” = 4 roll/box 1” = 3 roll/ box 2” = 2 roll/box 3” = 1 roll/box

• 20002 3M DURAPORE SILKTAPE 1X10Y -1538-1

Durapore Silk-like, hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 1” x 10 yard Metric: 2.5cm x 9.14m	1 roll 12 roll/ box 10 box/case

• 20003 3M DURAPORE SILKTAPE 2X10Y -1538-2

Durapore Silk-like, hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 2” x 10 yard Metric: 5cm x 9.14m	1 roll 6 roll/ box 10 box/case

• 20004 3M DURAPORE SILKTAPE 3X10Y -1538-3

Durapore Silk-like, hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 3” x 10 yard Metric: 7.5cm x 9.14m	1 roll 4 roll/ box 10 box/case

MEDIPORE™ H Soft Cloth Surgical Tape

The same soft, latex-free, hypoallergenic, comfortable tape as standard Medipore tape, but with increased gentleness and stronger adhesion for more challenging applications. Available in preforated rolls in several sizes

- More gentleness than Medipore tape
- Higher adhesion than medipore tape
- Latex-free and hypoallergenic for sensitive patients
- Excellent cross and diagonal stretch to accomodate moderate swelling or movement.
- Easy-tear perflrated rolls for quick tailoring
- Water Resistant

Suggested Applications

✓ When repeated taping is needed and preservation of “at risk skin” is critical
✓ Securing over areas where sking may stretch (e.g., edema, distention, hematoma formation or movement.)

- **20007 3M MEDIPORE TAPE 2X2Y -2862S**

Medipore™ H Soft Cloth, hypoallergenic surgical tape, short roll

SPECIFICATIONS:	PACKAGING:
Size: 2” x 2 yard Metric: 5cm x 1.8m	1 roll 48 roll/ case

- **20008 3M MEDIPORE TAPE 3X10Y -2863**

Medipore™ H Soft Cloth, hypoallergenic surgical tape,

SPECIFICATIONS:	PACKAGING:
Size: 3” x 10 yard Metric: 7.55cm x 9.14m	1 roll 12 roll/ case

- **20009 3M MEDIPORE TAPE 4X2Y -2864S**

Medipore™ H Soft Cloth, hypoallergenic surgical tape,

SPECIFICATIONS:	PACKAGING:
Size: 4” x 2 yard Metric: 10cm x 1.8m	1 roll 24 roll/ case

MICROPORE™ Surgical Tape

A latex-free, hypoallergenic paper tape that is gentle to the skin yet adheres well and leaves minimal adhesive residue upon removal. An economical, general purpose, breathable surgical tape. Available in white or tan.

- Gentle to the skin
- Latex-free and hypoallergenic for sensitive patients
- Highly breathable to maintain skin integrity
- Holds well on damp skin for secure placement

Suggested Applications

- ✓ Securing small to medium dressings especially on damp skin
- ✓ Securing lightweight tubing
- ✓ Securing ostomy pouches
- ✓ Taping fragile, at-risk skin
- ✓ When repeated taping is needed

• 20010 3M MICROPORE TAPE 1/2X10Y -1530-0

Micropore™ Paper, Hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 1/2” x 10 yard Metric: 1.25cm x 9.14m	1 roll 24 roll/box 10 box/case

• 20011 3M MICROPORE TAPE 1X10Y -1530-1

Micropore™ Paper, Hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 1” x 10 yard Metric: 2.5cm x 9.14m	1 roll 12 roll/box 10 box/case

• 20012 3M MICROPORE TAPE 2X10Y -1530-2

Micropore™ Paper, Hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 2” x 10 yard Metric: 5cm x 9.14m	1 roll 6 roll/box 10 box/case

• 20013 3M MICROPORE TAPE 3X10Y -1530-3

Micropore™ Paper, Hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 3” x 10 yard Metric: 7.5cm x 9.14m	1 roll 4 roll/box 10 box/case

TRANSPORE™ Surgical Tapes

A latex-free, hypoallergenic, transparent and preforated plastic tape that offers strong adhesion. Transpore tape is easy to tear into very thin strips, and is easy to use even with gloves.

- Easy, straight, bi-directional tear allows clinician to tailor the tape
- Porous for breathability
- Easy to handle with gloves
- Good adhesive to skin and tubing for secure placement
- Transparent for easy monitoring
- Latex-free and hypoallergenic for sensitive patients
- Water-resistant

Suggested Applications

✓ Securing tubing devices (e.g, catheters, I.V. tubing)
✓ Anchoring bulky dressings
✓ When tape width must be customized

- **20026 3M TRANSPORE TAPE 1/2X10Y -1527-0**

Transpore™ Clear, porous, plastic hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 1/2” x 10 yard Metric: 1.25cm x 9.14m	1 roll 24 roll/box 10 box/case

- **20027 3M TRANSPORE TAPE 1X10Y -1527-1**

Transpore™ Clear, porous, plastic hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 1” x 10 yard Metric: 2.5cm x 9.14m	1 roll 12 roll/box 10 box/case

- **20028 3M TRANSPORE TAPE 2X10Y -1527-2**

Transpore™ Clear, porous, plastic hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 2” x 10 yard Metric: 5cm x 9.14m	1 roll 6 roll/box 10 box/case

- **20029 3M TRANSPORE TAPE 3X10Y -1527-3**

Transpore™ Clear, porous, plastic hypoallergenic surgical tape, standard roll

SPECIFICATIONS:	PACKAGING:
Size: 3” x 10 yard Metric: 7.5cm x 9.14m	1 roll 4 roll/box 10 box/case

Surgical Tapes

TRANSPORE™ White Dressing Tapes

A latex-free, hypoallergenic, gentle tape has strong adhesion and easy bi-directional tear. Transpore White tape is very versatile and provides good value. It was designed to combine the best features of Transpore tape with those of Micropore tape.

- Good initial and long-term (72 hours) adhesion
- Holds well on damp or dry skin
- Easy, straight, bi-directional tear for quick tailoring
- Gentle to skin - latex-free and hypoallergenic for sensitive skin
- Easy to handle with gloves
- Minimal edge lift during wear
- Breathable to maintain skin integrity
- Sticks well to itself (overtaping)
- Water-resistant

Suggested Applications

- ✓ To secure dressings to damp or dry skin
- ✓ To tape fragile, at-risk skin
- ✓ For repeated taping
- ✓ When tape width must be customized
- ✓ To anchor tubing and devices

• 20030 3M TRANSPORE WHITE 1/2X10Y -1534-0

Transpore™ White, Easy to tear, hypoallergenic dressing tape

SPECIFICATIONS:	PACKAGING:
Size: 1/2” x 10 yard Metric: 1.25cm x 9.14m	1 roll 24 roll/box 10 box/case

• 20031 3M TRANSPORE WHITE 1X10Y -1534-1

Transpore™ White, Easy to tear, hypoallergenic dressing tape

SPECIFICATIONS:	PACKAGING:
Size: 1” x 10 yard Metric: 2.5cm x 9.14m	1 roll 12 roll/box 10 box/case

Self-Adherent Wrap

COBAN™ Self-Adherent Wrap

A self-adherent elastic wrap that functions like a tape, but sticks only to itself. Available in sterile and nonsterile styles, and in a variety of widths and colors to meet your application needs.

- Sticks to itself without need for adhesive, pins or clips for fast and easy application
- Wrap will not slip so no need for frequent readjustment
- Comfortable for patients
- Lightweight, porous
- Protects primary dressings
- Desired amount of compression at time of application

Suggested Applications

- ✓ Wrapping splints/arm boards
- ✓ Compression dressing
- ✓ Overwrap for Unna’s boot
- ✓ Holding other dressings
- ✓ Securing I.V.’s and other devices/sterile drape
- ✓ Wrapping leg post-operatively

CAUTION: *This Product Contains Natural Rubber Latex which may cause Allergic Reactions.*

- **20100 3M COBAN YELLOW 3X5 -1538Y**

Coabn™ Self-Adherent Wrap, Yellow

SPECIFICATIONS:	PACKAGING:
Size: 3” x 5 yard Metric: 75mm x 4.5m	1 roll 24 roll/case

Reinforced Adhesive

STERI-STRIP™ Adhesive Skin Closure (Reinforced)

Sterile skin closure strips that are made of a porous, non-woven backing coated with a pressure-sensitive, hypoallergenic adhesive and reinforced with polyester filaments for added strength

- Less scanning when compared to staples or sutures
- Enhances patient comfort and less chance of infection than with sutures or staoles
- Fast application
- Comfortable to wear
- Reduces likelihood of skin irritation

Suggested Applications

✓ Providing wound support following early suture or staple removal
✓ Appropriate for low tension wounds

For use in:
✓ Emergency Department
✓ Operating Room
✓ Clinics and physician’s offices
✓ Same day surgery centers

- **20016 3M STERI-STRIP 1/4X 3” 3M R1541**

Steri-Strip™ Adhesive Skin Closures (Reinforced), 3 strips/envelope

SPECIFICATIONS:	PACKAGING:
Size: 1/4” x 3” Metric: 6mm x 75mm	1 envelope 50 envelope/box 4 box/case

- **20017 3M STERI-STRIP 1/4X 4” 3M R1546**

Steri-Strip™ Adhesive Skin Closures (Reinforced), 10 strips/envelope

SPECIFICATIONS:	PACKAGING:
Size: 1/4” x 4” Metric: 6mm x 100mm	1 envelope 50 envelope/box 4 box/case

- **20014 3M STERI-STRIP 1/2X 4” 3M R1547**

Steri-Strip™ Adhesive Skin Closures (Reinforced), 6 strips/envelope

SPECIFICATIONS:	PACKAGING:
Size: 1/2” x 4” Metric: 12mm x 100mm	1 envelope 50 envelope/box 4 box/case

TEGADERM™ Pad Transparent Dressing with Absorbent Pad

This composite dressing is a sterile, waterproof bacterial barrier which consists of a non-adherent absorbent pad bonded to a larger thin film transparent dressing.

- Convenient, all-in-one sterile dressing reduces application time.
- Waterproof bacterial barrier which allows patients to shower and protects the site from outside contaminants.
- Breathable film allows skin to function normally with good exchange of moisture vapor and oxygen.
- Provides moist wound environment to enhance healing and lessen pain.
- Unique, non-adherent pad won't stick to the wound, allowing normal wound healing processes to occur with less pain and trauma.
- Comformable dressing is easier to apply, and stretches with the skin to promote longer wear time.

Suggested Applications

✓ Dressings for wounds, to protect skin and for use over I.V. catheters and other intravascular and percutaneous devices.

Primary Dressing Applications

- ✓ Post-surgical dressing to protect clean, closed wounds
- ✓ Fragile, at-risk skin
- ✓ Light-to-moderately draining wounds
- ✓ Superficial and partial-thickness wounds
- ✓ Acute wounds such as cuts, burns, and abrasions
- ✓ To secure or cover devices
- ✓ Chronic wounds
- ✓ I.V. catheter sites (peripheral and central lines)

Secondary Dressing Applications

✓ Over hydrogels, alginates, and gauze

TEGADERM™ Transparent Film Dressing - IV

Transparent film dressings designed to secure the catheter in challenging I.V. applications. Many with notches and borders reinforced with a soft cloth fabric, designed to reduce edge lift and to seal around the insertion site.

- The CDC/HICPC Guidelines for the Prevention of Intravascular Catheter-
- Related Infections base dressing change recommendations on studies with Tegaderm Film.
- Notched designs provide a better seal around the catheter. Sterile tape strips are provided on many dressings.
- Breathable film allows moisture vapor and oxygen exchange.
- Transparency allows monitoring of I.V. sites without the need to remove the dressing.
- Picture-frame style allows one-handed application and less waste. Unique, non-adhesive handles allow for hassle-free application (1655 & 1650 designs).
- Waterproof dressing provides a breathable bacterial and viral barrier to outside contaminants and allows the patient to shower.
- For pediatric I.V.s, the 1610 dressing, with colorful bears, provides an ideal solution.
- Tegaerm Plus (9524 & 9526 designs) dressings contain iodophor impregnated adhesive.

Suggested Applications

- ✓ Peripheral and midline venous catheters
- ✓ Central venous catheters (including subclavian, jugular, femoral and PICCs)
- ✓ Implanted infusion devices (ports)
- ✓ Dialysis catheters
- ✓ Pulmonary artery catheters
- ✓ Arterial catheters
- ✓ Epidural catheters
- ✓ Insulin pump catheters
- ✓ Scalp vein needles
- ✓ Feeding tubes

Transparent Dressing

TEGADERM™ Transparent Film Dressing - Wound

Transparent film dressings designed for protecting skin and wound sites. Frame style allows customization of shape and size to fit any site. Unique sacral shape is designed for challenging and difficult-to-dress areas.

- The hydrophilic nature of Tegaderm HP (holding power) Film adhesive on the sacral shaped dressing makes it more adherent in moist conditions.
- Tegaderm Film, with the “frame” delivery system. allows maximum versatility as it can be cut to any shape and size.
- Dressings conform to the body and flex with skin greater patient comfort.
- Transparent dressings allow easy monitoring of wounds without the need to remove the dressing.

Suggested Applications

- ✓ Clean, closed surgical incisions
- ✓ Abrasions, skin tears, blisters
- ✓ Skin graft donor sites
- ✓ Superficial partial thickness burns
- ✓ Stage I or II pressure ulcers
- ✓ Autolytic debridement facilitated by the moist wound healing environment
- ✓ Protective eye coverings
- ✓ Post tattoo application and removal

Surgical Clippers

Surgical Clipper with Pivoting Head and Clipper Blade Assembly

A compact and lightweight rechargeable surgical clipper with a pivoting head for removing head and body hair from patients in preparation for surgery or other procedures requiring hair removal. Uses disposable, single-use blades.

- April 1999 CDC Guidelines recommend that if hair removal is required, the use of a surgical clipper immediately before an operation is one means to help reduce the risk of surgical site infections.
- Remove all types of head and body hair, wet or dry, to allow for standardization on one product for all hair removal needs.
- Unique design pivoting head rotates easily to allow flexibility of clipping with either a pushing or a pulling (raking) motion.
- The cutting blade is on top of the stationary blade, away from the skin, so there’s minimal risk of nicks or cuts.
- Single-use blades help reduce the risk of cross-contamination and are easy to snap on for use and pop off for disposal.
- Rechargeable clipper has a nickel metal hydride battery that provides approximately 90-100 minutes of run time, allowing multiple patients to be clipped from a single 12-14 hour recharge.
- Unique design is easy to clean and disinfect, wipe with a disinfectant or rinse under running water.

Suggested Applications

- ✓ Removing head and body hair from patients in preparation for procedures where hair removal is desired.

TEGADERM™ Transparent Film Dressing - Universal

Transparent film dressings used to cover and secure I.V. sites to protect at-risk skin, or as a primary or secondary dressing over acute wounds, surgical sites, and chronic wounds. Available in a variety of sizes and shapes.

- Versatility allows you to use one product for many applications. Breathable film allows moisture vapor and oxygen exchange.
- For I.V. sites, water vaport and oxygen are easily exchanged to permit normal functioning of the skin.
- Provides a moist environment for enhanced wound healing, as viscous wound
- exudate is more slowly evaporated through the breathable film.
- Unique, thin film conforms to the body and flexes with the skin for greated patient comfort.
- Sterile, waterproof dressing provides a bacterial and viral barrier to outside contaminants and allows the patient to shower.
- The dressings are available in a variety of sizes and shapes to address both wound and I.V. applications.
- Tegaderm™ Roll has a preferred delivery system that allows it to be applied with gloved hands. Tegaderm™ Roll provides all the benefits of surgical tape, while providing a waterproof, bacterial, viral barrier.
- 1614 and 1616 dressings offer borders reinforced with a soft cloth fabric, designed to reduce edge lift and increase patient comfort.
- The hydrophilic nature of Tegaderm™ HP (holding power) Film adhesive makes it more adherent and useful in moist conditions.
- 1620 and 1621 first aid style dressings offer reinforced edges, built-in labels and a centering line for easy placement.

Suggested Applications

✓ **To cover and protect I.V. catheter sites and secure devices to skin:**

- Peripheral and midline venous catheters
- Central venous catheters
- Implanted infusion devices (ports)
- Dialysis catheters
- Pulmonary artery catheters
- Arterial catheters
- Epidural catheters

✓ **For use in wound care and skin protection**

- Clean, closed surgical incisions
- Abrasions, skin tears, blisters
- Skin graft donor sites
- Superficial partial thickness burns
- Stage I or II pressure ulcers
- Autolytic debridement facilitated by the moist wound healing environment
- Secondary dressing
- Protective eye covering
- Skin protection against moisture, friction

✓ **For Tegaderm™ Roll (non-sterile):**

- Secondary dressing or as a primary dressing over intact skin
- Protection of at risk skin from friction and body fluids
- Waterproof fixation of primary dressings
- Fixation of medical devices

- **20141 3M TEGADERM #1627**

Surgical Clipper with Fixed Head and Clipper Blade Assembly

An ergonomically designed surgical clipper with a fixed head and non-slip grip for removing head and body hair from patients for procedures requiring hair removal. Operates corded or cordless. Uses disposable, single-use blades.

- Universal - for body and hair removal.
- Removes all types of hair - fine or coarse, wet or dry.
- Operates with or without cord.
- Clipper blade assembly is fixed (non-rotating) - easy attachment, easy removal.
- The cutting blade is on top of the stationary blade, away from the skin, so there's minimal risk of nicks or cuts.
- NiMH battery charges continuously during corded operation: LED light indicates charging mode.
- Ergonomic designs fits comfortably in hand, features non-slip grip.
- Improved, state-of-the-art performance; easier to use, direct steel drive for dependability.
- Cuts hair in both pulling (raking) and pushing motions.
- Single-use blades help eliminate cross-contamination and are easy to snap on and pop-off for disposal.
- Provide approximately 60 minutes of cordless time from a single 12-14 hour recharge.
- Easy-to-clean handle - just wipe with a disinfectant or rinse under running water.

Suggested Applications

✓ Removing head and body hair from patients in preparation for procedures where hair removal is desired.

	1 each

Surgical Steri-Drape

Steri-Drape™ Patient Isolation Drapes

A variety of surgical drapes that provide a vertical barrier to keep the C-arm isolated from the sterile surgical field during hip/femur fracture or trauma procedures. Available with pouches and with 3M™ Ioban™ 2 Antimicrobial Incise Film.

- An all-in-one, draping system that helps make draping quick and convenient by eliminating the need to drape the image intensifier (C-arm), saving time and money.
- Helps create a vertical sterile barrier between the sterile and non-sterile fields, and helps prevent fluid strike-through, helping to reduce the risk of contamination.
- Clear film helps the surgical team see the patient and C-arm from the sterile field.
- 6617 and 6619 drapes include Ioban 2 antimicrobial incise film providing continuous broad-spectrum antimicrobial activity to help reduce the risk of surgical site contamination.
- Fluid control pouch of 6617, 6619 and 1017 drapes help reduce cleanup time and helps minimize the risk of body fluid exposure to healthcare personnel.
- Fluid screen in pouch helps contain bone chips and tissues for specimen collection, and catches sponges and instruments to help prevent contamination of instruments and floor.

Suggested Applications

✓ Draping for patients who are positioned on a fracture table when a C-arm is used.

- **20572 3M PATIENT ISOLATION INCISE DRAPE - 6617**

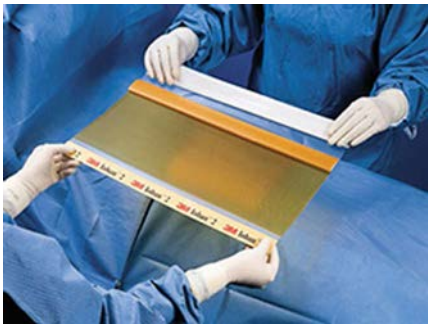
3M™ Steri-Drape™ Isolation Drape with Ioban™ 2 Incise Film and Pouch, clear plastic, exit port, 2 instrument pouches, 2 tube and cord organizers, adhesive strip along top

SPECIFICATIONS:	PACKAGING:
Overall: 125” x 83” (320cm x 213cm) Incise: 19” x 9-3/8” (50cm x 24cm)	1 each 5 each/box 4 box/case

Surgical Incision Drape

Ioban™ 2 Antimicrobial Incise Drape

Antimicrobial surgical incise drapes with an iodophor impregnated adhesive, designed to provide a sterile surface all the way to the wound edge and continuous antimicrobial activity throughout the procedure.



- Ioban 2 incise drapes provide continuous broad-spectrum antimicrobial activity to help reduce the risk of surgical site contamination.
- The drape adheres securely to wound edges, providing a reliable barrier to bacteria on the skin.
- Incise drapes are made with a “low memory” film that conforms to body contours and stretches to allow limb manipulation.
- Available in a variety of sizes to meet your procedural and incision-size needs.
- Includes the “easy-delivery” drape application feature (except 6635).

Suggested Applications

✓ Incise draping with continuous antimicrobial activity for surgical procedures.

Pharmacy & Patient Aids Devices, Orthopedic Casts

Scotchcast™ Plus Casting Tapes

A lightweight, strong and durable casting tape that combines the benefits of a fiberglass casting tape with the handling ease of plaster. Available in 13 colors to meet patient referemces.

- Water-activated resin lets you control working time according to application needs.
- High and early strength allows for weight bearing in 20 minutes and provides a durable cast with less chance of breakdown and the need for costly repairs or replacements.
- Lightweight for easy mobility.
- Stretches to conform well to contours for a more comfortable, better fitting cast.
- Porous weave allows the skin to breathe.
- Available in 13 colors to maximize patiemt satisfication.

Suggested Applications

✓ For use in the construction of orthopedic casts.

The Comply™ 1322 lead free indicator tape for steam sterilization consists of an adhesive, backing, and chemical indicator stripes. The adhesive is an aggressive, pressure-sensitive adhesive designed to adhere a variety of wraps, including untreated woven and disposable non-woven, paper and paper/plastic wraps in order to secure the pack during steam sterilization. After sterilization, the tape is designed to remove easily and clealy from untreated woven wraps. The backing is a beige colored crepe papaer and provides the stretch needed for pack expansion during sterilization. The chemical indicator lines will show a visual color change from off-white/tan to dark-brown/black when exposed to a steam sterilization process.

An exposure monitor that securely seals packs, and provides a visual assurance that the package has been exposed to the steam sterilization process.

- Lead Free Ink means no hazardous waste issues
- Trusted, high quality adhesive
- Stretchable backing that minimizes tape “pop-off” during sterilization
- Can be written on or labeled with pre-printed labels

SPECIFICATIONS:

Brand:	Comply	Product Use:	Exposure Monitoring
Industries:	Life Sciences	Sterilization Method:	Steam
Product Type:	Indicator Tape	Trademark:	Comply

Indications for Use

The Comply™ lead free process indicators for steam, including Comply™ 1322 lead free steam indicator tape, are designed for use by a health care provider to accompany individual units to demonstrate that the unit has been exposed to the sterilization process and to distinguish between processed and unprocessed units. Use the Comply™ 1233 lead free steam indicator tape in validated 250°F/121°C, 270°F/132°C, 273°F/134°C, and 275°F/135°C steam sterilization processes.

Use the lead free steam indicator tape to demonstrate that packs have been exposed to the sterilization process. The tape is designed to secure packs wrapped with untreated woven and disposable non-woven, paper and paper/plastic wraps.

Precautions

- ✓ Do not use with dry heat, ethylene oxide, or other low temperature sterilization processes.
- ✓ Potential problems may occur with marginal adhesion and/or adhesive residue if using the lead free steam indicator tape to secure packs wrapped with barrier-treated, woven polyester fabrics.

• 20127 3M INDOX EO INDICATOR 1224-6

3M Comply Ethylene Oxide Indicator Tape Comply ethylene oxide indicator tape is designed for use as a packaging tape and as a means of ascertaining whether packs have been exposed to ethylene oxide gas.

- Trusted, high quality adhesive
- Ink does not contain lead

SPECIFICATIONS:

Color: Green
Length (metric): 55 m
Producty Type: Indicator Tape
Product Use: Exposure Monitoring
Width: 0.75 inch
Sterilization Method: Ethylene Oxide (EO)

• 20290 3M COMPLY BOWIE-DICK TEST PACK 1233F

Steam penetration test for vacuum-assisted steam sterilizers.

- Easy-to-read test sheet clearly identifies failures and can be filed for record keeping
- Lead Free ink chemistry
- Equivalent to the Bowie-Dick Towel Pack cited in AAMI.
- Yellow indicator pattern turns dark brown/black after processing
- Lead-free chemistry

SPECIFICATIONS:

Industries: Life Sciences
Model: 1233LF
Producty Type: Bowie-Dick
Product Use: Equipment Monitoring
Sterilization Method: Ethylene Oxide (EO)

As an internal pack monitor, the 3M™ Comply™ EO (ethylene oxide) Chemical Indicator offers immediate, accurate and easy to read method of monitoring both 100% and EO/HCFC gas mixture sterilization processes .

• 20123 3M COMPLY EO CHEM IND STRIP 1251

Internal pack monitor for use in EO (ethylene oxide) sterilizers.

- Monitors 100% and Mixed Gas Ethylene Oxide cycles
- Size 1.5 cm x 20 cm (5/8" x 8-1/2")
- Long strip perforated style allows for full- or half-length use
- Red to green color change

SPECIFICATIONS:

Industries: Life Sciences
Model: 1251
Producty Type: Chemical Indicator
Product Use: Pack Monitoring
Sterilization Method: Ethylene Oxide (EO)

- **20124 3M COMPLY STEAM CHEM INTEGRATOR 1243B**
- **20125 3M COMPLY STEAM CHEM IND INDICATOR 1250**

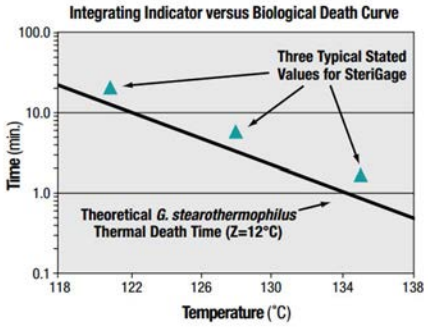
The Comply™ SteriGage™ Chemical Integrators help provide the highest level of pack control sterilization assurance by showing whether each pack has been exposed to the conditions necessary for sterilization to occur. SteriGage Chemical Integrators immediately detect individual pack failures resulting from equipment malfunction or human error in packing, loading or operation. That's why organizations such as the Association for the Advancement of Medical Instrumentation (AAMI) and the Association of periOperative Registered Nurses (AORN) recognize the importance of pack monitoring.

SteriGage Chemical Integrators provide precise results by integrating changes in all critical sterilization parameters before indicating an "ACCEPT" result. Easier to read and interpret than color-change strips, SteriGage Chemical Integrators in packs, trays, containers and peel pouches assure you that all the critical parameters have been met.

- "Accept" or "Reject" at a glance
- For use in all 118-138°C (245-280°F) steam sterilization cycles
- Conforms to ANSI/AAMI/ISO 11140-1:2005 and EN ISO 11140-1:2005
- Helps prevent costly infections
- Minimizes recalls and reprocessing
- Safe and compatible with all packs

3M SteriGage Chemical Integrators provide added sterilization assurance by monitoring three critical steam sterilization parameters:

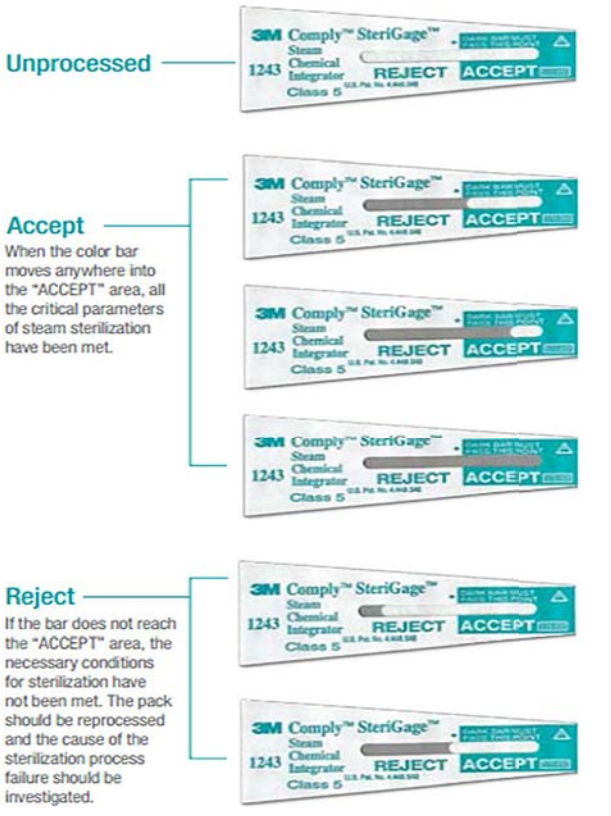
- Time
- Temperature
- Steam Penetration



Recommended Applications:

3M™ Attest™ Rapid 5 Steam Plus Test Pack	3M™ Comply™ SteriGate™ Steam Chemical Integrator Test Pack
All loads containing implants Routine sterilizer efficacy testing Sterilizer qualification testing	All other loads not monitored by 3M Attest Rapid 5 Steam Plus Test Pack

3M™ Comply™ SteriGage™ Chemical Integrators are easy to read – help eliminate guesswork



- **20573 3M ATTEST AUTOREADER FOR STEAM 390 VAC -390**
- **20589 3M ATTEST AUTOREADER FOR EO – 390G**

Featuring advanced electronics and a backlit LCD panel, the 3M™ Attest™ Auto-reader 390 and 390G turn up the dial on simplicity and connectivity. They give you even more confidence in your efforts to ensure patient safety, while working with your existing 3M™ Attest™ Rapid Readout products.

- Easy custom configuration buttons on top of the unit
- Remote viewing of BI results from your Smart Phone or PC
- Saving or printing incubation records from web app
- Ability to connect to select instrument-tracking software systems
- Backlit LCD panel for fast, easy reading of data, including at-a-glance minutes remaining in incubation

Attest™ Rapid Readout Biological Indicators and Test Packs for 250°F/121°C Gravity and 270°F/132°C Vacuum Assisted Steam Sterilizers

Rapid readout biological indicator and test packs designed to monitor the effectiveness of the steam sterilization process with results in three hours. System includes biological indicators, auto-reader and log books.

- Provides results in three hours.
- Self-contained biological indicators significantly reduce possibility of contamination, minimizing false positives and assuring more accurate results.
- Faster result time, making it possible to quarantine every load and eliminate recalls.
- System can help reduce the costs associated with fighting infections - cost measured in both dollars and time spent.
- Color-coded for quick reference and easy use.
- Test packs present a challenge to the sterilization process and meet AAMI test pack recommendations.

Suggested Applications

✓ 1292 Rapid Readout Biological Indicators are designed to monitor 250°F/121°C gravity and 270°F/132°C vacuum-assisted steam sterilization processes.

✓ 1296 and 1296F Rapid Readout Biological Indicators are designed to monitor 250°F/121°C, ≥ 40 minute gravity steam processes, and 270°F/132°C, ≥ 4 minute vacuum-assisted steam processes.

- **20118 3M ATTEST BIOLOGICAL IND #1292**

Attest™ Rapid Readout Biological Indicator for Steam 250°F/121°C gravity or 270°F/132°C vacuum assisted sterilizers, 3 hour readout, Brown cap

SPECIFICATIONS:	PACKAGING:		
	1 each 50 each/box 4 box/case	4 box	Box

Attest™ Rapid Readout Biological Indicators and Test Packs for Ethylene Oxide (EO)

Rapid readout biological indicator and test packs that monitor the effectiveness of the EO sterilization process and provide results within 4 hours. Use with 3M™ Attest™ Auto-reader 290G.

- Biological Indicator results in four hours (1294)
- Test packs present a challenge to the sterilization process as do the AAMI recommended packs.
- Every load monitoring and quarantining can eliminate recalls.
- Malfunctioning sterilizers can be repaired and put back into service quickly.
- Each test pack contains a 3M™ Attest™ Rapid Readout Biological Indicator
- The 3M™ Attest™ Rapid Readout Biological Monitoring System can help reduce the costs associated with fighting infections - a cost measured in both dollars and time spent.

Suggested Applications

✓ The Attest 1294 Rapid Readout Biological Indicator for Ethylene Oxide is used to monitor Ethylene Oxide Sterilization cycles when used in conjunction with the Attest 290G Auto-Reader for EO.

- **20119 3M ATTEST BIOLOGICAL IND #1294**

Attest™ Rapid Readout Biological Indicator for EO, 4 hour readout, Green cap

SPECIFICATIONS:	PACKAGING:

Gas Sterilizers

• 20264 3M STERI VAC 5XL 1DR W/ PRINTER AND RHM

A dual-cycle, 100% ehylen oxide (EO) gas sterilizer/aerator with a 4.8 cubic foot chamber. It can be installed in a wall or placed on a freestanding rack. Includes upper and lower baskets, and installation kit. A local exhaust hood is available.

- Ethylene oxide is a proven, efficacious sterilant offering maximum assurance that instruments are sterilized.
- With relative humidity monitor.
- Built-in aeration begins automatically after sterilization and reduces potential EO exposure.
- Constant vacuum for operator safely.
- No CFCs or HCFCs mean a low temperature sterilization system that's compatible with the environment.
- Low cost per cycle offers cost-effective means of low temperature sterilization.

Suggested Applications

✓ Sterilization of heat and moisture sensitive instruments and devices.

Benefits of Ethylene Oxide Sterilia tion

- ✓ All microorganisms, including resistant spores, are killed by chemical reaction with ethylene oxide.
- ✓ Materials can be prepackaged, then sterilized and maintained sterile until ised.
- ✓ Ethylene oxide is relatively nocorrosive to plastic, metal, or rubber materials.
- ✓ Ethylene oxide can penetrate and sterilize irregularly shaped items.
- ✓ Biological and chemical monitoring systems can be used to ensure that sterilization parameters are met and to distinguish processed from unprocessed materials.
- ✓ Ethylene oxide can be used to sterilize those materials that cannot be immersed in liquid disinfectants or processed by steam or dry heat sterilization.

• 20591 3M STERI VAC 8XL DUAL GAS STERILIZER /AERATOR WITH PRINTER

A dual-cycle, 100% ehylen oxide (EO) gas sterilizer/aerator with a large 7.9 cubic foot chamber. It can be installed in a wall or placed on a free-standing in the room. Includes upper half baskets and lower basket, and installation kit.

- Ethylene oxide is a proven, efficacious sterilant offering maximum assurance that instruments are sterilized.
- Large chamber nearly doubles sterilizing capacity compared to other models.
- Built-in aeration begins automatically after sterilization and reduces potential for EO exposure.
- Optional remote operation panel enhances operator safety, and allows operator to program up to four 8XL units.
- The only hospital EO sterilizer with a direct RH sensor to document, control and provide optimal humidity to each load.
- No CFCs or HCFCs mean a low temperature sterilization system that's compatible with the envrionment.
- Low cost per cycle offers cost-effective means of low temperature sterilization.

Suggested Applications

✓ Sterilization of heat and moisture sensitive instruments and devices.

✓ Are designed for the sterilization method in use.
✓ Permit air removal and sterilant penetration.
✓ Maintain sterility during storage and handling.
✓ Permit aseptic presentations of package contents.

- **20285 3M STERI-LOCK SEALER 8520**

The 3M™ Steri-Lok™ 8520 rotary heat sealer is a sealing machine for sealing sterilization packages consisting of paper and paper laminate foil. The sealing machine over is made up of white steel and rotary speed is 10 m/min with digital temperature control.

✓ Excellent temperature control for uniform seal
✓ Consistent seal width of > 6mm with 4 seal lines
✓ Continuous seals, no gaps/holes for effective microbial barrier
✓ Wide operating temperature range from 20° to 220°C for wide application with different materials.
✓ Adjustable peel-edge from 5 to 35mm - ease of peeling.
✓ High operating speed of 10m/min leads to high turnaround
✓ User friendly - ease of set up for minimum maintenance

Specifications:

Power connection: 230/115V	Dimension, length: 550 mm	Sealing temp. tolerance: ±2%
Main fuse: 4 MA	Dimension, width: 260 mm	Sealing seam: 12 mm
Power consumption: Max 500W	Dimension height: 160 mm	Infinitely adjustable sealing edge: 5 -35 mm
Heat dissipation: 0.1 kJ s	Weight: 15 kg (approx)	
Noise intensity: 47 dB/A	Processing speed: 10 m/min	Sealing seam length: unlimited
Ambient temperature: 5 - 25°c	Sealing temperature: 20 - 220°c	

Disinfection Concentrate

An effective multi-enzyme detergent used for cleaning metal and plastic medical instruments, including flexible and rigid endoscopes.

✓ EFFECTIVE
- 3M Rapid Multi-Enzyme Detergent is able to effectively digest human secretions. The proprietary multi-enzyme formula in 3M Rapid Multi-Enzyme Detergent is effective in the breakdown of proteins, mucopolysaccharides, lipids and carbohydrates.

✓ FAST ACTING
- You only need to immerse instruments for 2-10 minutes

✓ CONVENIENT
- 3M Rapid Multi-Enzyme Detergent is compatible with medical and surgical instruments and can be diluted with water temperatures up to 40°C. Can be used with manual or ultrasonic cleaning.

✓ ENVIRONMENTALLY FRIENDLY
- Made with biodegradable materials.

Product Use
- Accessory, Wall Bracket

Stethoscopes

• 20079 3M STETH-MASTER CARDIO #2160

Benefits

·Outstanding acoustics: The highest in Littman mechanical stethoscopes.
·Tunable diaphragm: Hear high or low frequency sounds by slightly adjusting pressure on the chestpiece
·Dual-lumen tubing: Two sound paths in one tube eliminates the rubbing noise of traditional double tubes
·Headset is easily adjusted for individual fit and comfort. Angled eartubes align with ear canals.
·Includes Special Procedures Adaptor for pediatric or neonatal auscultation.

Description

The 3M™ Littman® Master Cardiology™ Stethoscope is characterized by the best acoustic response in the Littman mechanical stethoscope line; with a tunable diaphragm, dual-lumen tubing, and a precision, ergonomically designed, stainless steel chestpiece.

Specifications

Length: 28 Inch (71cm)
Net Weight: 5.7 oz (160g)
Applications: Cardiology/ High Performance
Chestpiece Finish: Polished Stainless Steel
Chestpiece Technology: Single sided
Chestpiece Weight (metric): 90g
Color Group: Black
Diaphragm Diameter: 1.75 in / 4.4 cm
Diaphragm Material: Epxoy/Fiberglass
Diaphragm Type: Tunable Diaphragm
Eartip Type: Soft Sealing
Extra Eartips: Yes - two pairs
Headset Material: Wide diameter aerospace alloy / Anodized aluminum
Model: Master Cardiology™
Occupation: Respiratory Specialist, Emergecny Physician, Medical Student, EMT/ EMS, Nurse, Cardiologist, Family Practitioner, Internist, Pediatrician, Anesthesiologist, Physician
Patient: Adult, Infant, Pediatric
Special Adaptors: Yes
Tube Color: Black

- **High acoustic sensitivity** for performing general physical assessments.
- **Tunable diphragms** on both the adult and pediatric sides of the chestpiece.
- **Single-piece diaphragm** that's easy to attach and easy to clean because the surface is smooth without crevices.
- **Next-generation tubing** with improved resistance to skin oils and alcohol for longer tubing life. Less likely to pick up stains.

3M

Stethoscopes

Features:

- ✓ **Tunable technology** is a 3M invention that lets you shift between hearing high and low frequency sounds by simply adjusting how much you press on the chestpiece.
- ✓ **Soft-sealing eartips** give you a comfortable fit and an excellent acoustic seal; they snap tightly onto the eartubes for safety.
- ✓ **Open bell stays clear** of dirt and debris by keeping it covered with the small diaphragm.
- ✓ **Adjustable headset** lets you easily set the tension for head size and comfort just by squeezing or pulling apart the eartubes.
- ✓ **No natural rubber latex or phthalate plasticizers** are used in the tubing or any other component—to help protect human health and the environment.
- ✓ **Made in the USA** for consistent quality. We apply rigorous process and quality controls to every Littmann stethoscope. You'll always get a durable, dependable, clinical tool that will serve you for years to come.

Specifications

Length:	69cm / 27.2 inches
Weight:	150g
Acoustic Performance:	7
Warranty:	5 years

CHESTPIECE

Construction:	Two-sided, adult and pediatric
Material:	Stainless steel
Diaphragm type:	Tunable, single-piece
Diaphragm diameter:	Adult: 4.3cm / 1.7in Pediatric: 3.3cm / 1.3in

TUBING

Construction:	Single Lumen (single acoustic channel within tube)
Material:	Not made with natural rubber latex or phthalate plasticizers.

HEADSET

Material:	Wide diameter aerospace alloy / anodized aluminum

Surgical Mask

- **20594 3M MASK N95 RESPIRATORY AVANTI 9105**
- **20597 3M MASK N95 RESPIRATOR AVANTI PEDIA 9105S**

This economic disposable N95 particulate respirator has a unique folded design with V-shaped pleats that flex with mouth movement for easier talking and expand for ease of breathing. Available in two sizes to fit a broad range of faces.

This disposable N95 particulate respirator is designed to help provide quality, reliable worker respiratory protection for certain non-oil based particles. It has a unique folded design with 3M propietary filter media and V-shaped pleats that expand to help make breathing easier. In addition, the V-shaped pleats flex with mouth movement for easier talking. The respirator features uniquely designed tabs for positioning the respirator on the face and embossed front panel to help the the respirator retain its shape.

- Economical N95 disposable particulate respirator
- Adjustable noseclip helps provide a custom fit and secure seal
- Flat fold design allows for convenient storage prior to use
- Compatible with a variety of eyewear and hearing protection from 3M
- Spacoius with comfortable inner layer
- Pleats flex with mouth movement while talking
- Uniquely designed tabs for respirator positioning on the face

WARNING: *These respirators help reduce exposures to certain airborne contaminants.Before use, the wearer must read and understand the User Instructions provided as a part of the product packaging. In the U.S., a written respiratory protection program must be implemented meeting all the requirements of OSHA 1910.134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see package instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.*

3M

Surgical Mask

- **20047 3M MASK N95 RESPIRATOR ADULT #1860**
- **20586 3M MASK N95 RESPIRATOR PEDIA 1860S**

This healthcare respirator is designed to help provide respiratory protection for the wearer. It meets CDC guidelines for Mycobacterium tuberculosis exposure control. As a disposable particulate respirator, it is intended to help reduce wearer exporsure to certain airborne particles including those generated by electrocautery, laser surgery, and other powered medical instruments. As a surgical mask, it is designed to be fluid resistant to splash and spatter of blood and other infectious materials.

- NIOSH Approved: N95
- FDA cleared for use as surgical mask
- Fluid resistant and disposable
- Helps protect against certain airborne biological particles
- SKU: 70070612364 UPC: 50707387419429

This health care particulate respirator and surgical mask helps provide respiratory protection against certain airborne biological particles. It is disposable and fluid resistant to splash and spatter of blood and other infectious material.

Suggested Setings & Applications:

- ☑ Operating Rooms
- ☑ Clinics
- ☑ TB Wards
- ☑ Patient Care
- ☑ Labor and Delivery
- ☑ Infection Control Practices
- ☑ Laboratory
- ☑ Emergency or Pandemic Preparedness Planning
- ☑ Stockpiling

Specifications

Aerosol Type: Non-Oil	Flame Resistance: No	Respirator Style: Cup
Box per Case: 6	Fluid Resistant: Yes	Size: Standard

Exhalation Valve: No	Packaging: Bulk Case	
FDA Cleared: Yes	Product Type: Healthcare Respirator	

Features include:

- NIOSH approved N95
- FDA cleared for use as a surgical mask
- Collapse resistant cup shape design
- 99% BFE (Bacterial Filtration Efficiency) according to ASTM F2101
- Fluid resistant according to ASTM F1862
- Respirator contains no components made from natural rubber latex
- Braided headbands, cushioning nose foam, and light weight construction for comfortable wear

- **20046 3M MASK N95 RESPIRATOR 8210**

- NIOS approved for at least 95 percent filtration efficiency against certain non-oil based particles
- Two strap design with welded dual point attachment helps provide a secure seal
- Lightweight construction promotes greater worker acceptance and may help increae wear time
- Adjustable noseclip helps provide a custom fit and secure steal
- Advanced electrostatic media is designed for ease of breathing
- SKU: 70070614394

Particulate Respirator 8210, N95 is a disposable particulate respirator that is designed to help provide reliable respiratory protection of at least 95 percent filtration efficiency against certain non-oil base particles.

This respirator is designed for use for particles such as those from grinding sanding, sweeping, sawing, bagging or dusty operations.This respirator can also help reduce inhalation exposure to certain airborne biological particles but cannot eliminate the risk of contracting infection or disease. This particulate respirator is NIOSH approved for envrionments containing certain non-oil based particles and provides at least 95% filter efficiency. Breathing hazardous particles can pose a risk to your health. NIOSH, a Federal government regulatory agency has tested and approved the Particulate Repirator 8210, which is designed to help reduce exposure to certain airborne particles.

Personal Protective Equipment

• 20584 3M COVERALL SUIT MEDIUM 4540T

Details

With premium dual material technology and offering CE Category III, Type 5/6 protection, the 3M™ Protective Coverall 4540+ is ideal for applications where both high levels of protective performance and comfort desired.
·Excellent barrier against dry particles and certain liquid chemical splash (CE Type 5/6)
·Soft and light, ultra low-linting laminated microporous material that drapes and hangs well over the body facilitating ease of movement
·Back panel made of breathable SMMMS material for improved air circulation and reduced heat stress
·2-way zipper with fully sealable storm flap for added on-off convenience and extra protection
·3-panel hold design for enhanced compatibility with complimentary PPE
·Knitted cuffs and elasticated waist and ankles for increased comfort and freedom of movement
·Anti-static treated
·Low linting

Specifications

Colour: White
Hazard Type: Certain limited splash and solid airbourne particle protection (Type 5 & 6)
Material: Combined SMS-Laminate

Packaging: Single Pack
Product Type: Protective Coverall
Seam Type: Serge and Bound
Size: M
Style: 3 Panel Hood, Enhanced Gusset, Elastic Waist, Knitted Cuff
Typical Application: Asbestos removal, light industrial cleaning, machine maintenance, pharmaceutical processing, handling toxic powder, asbestos inspection, site preparation, insulation, painting & coating, resins

• 20585 3M GOGGLE CHEMICAL SPLASH 334AF

Details

Economical goggle 334AF protective eyewear offers indirect anti-fog venting, an adjustable elastic strap, and plolycarbonate construction with over-the-glass coverage. Indoor or outdoor use safety goggles.

Suggested Applications

·Clear lens
·Polycarbonate lens absorbs 99.9% UV.
·Meets the High Impact Requirements of ANSI Z87.1-2003
·10 safety goggles per case

Specifications

Class: Economy
Comfort Features: Adjustable elastic strap, Fits over most glasses, Indirect ventilation
Eyewear Range: Economy
Frame Style/Type: Goggle
Lens Coating: Anti-Fog
Lens Color: Clear
Lens Marking: Z87+
Product Series: 334 Splash
Product Type: Safety Goggle
Splash Protection: Yes
Standards/Approvals: ANSI Z87.1-2003

Surgical Tape

• 20193 3M MICROPORE PLASTR 1X2.5M
• 20194 3M MICROPORE PLASTR 1/2X2.5M

A lightweight, breathable “paper” tape that is latex-free, hypoallergenic and gentle to the skin. A “gentle tape” ideal for securing bandages on sensitive skin that must be changed frequently.

ADVANTAGES	USES	SIZES
No. 1 Hospital tape (preferred surgical tape) Latex-free, hypoallergenic (reduces risk for allergic reactions More porous that other tapes, allows skin to “breathe” Easy, painless removal No adhesive residue when removed	For sensitive skin, or skin of the elderly - frequently changed dressings	12mm x 2.5m 24mm x 2.5m

3M

Ice Packs and Heat Packs

- **20180 3M HOT & COLD PACK COMFORT**

Dual-purpose, reusable gel-filled pillow that helps relive pain due to muscle aches, swelling and stiffness. May be used as a cold pack or as a hot compress.

ADVANTAGES	USES	SIZES
Flexible so that it comforts to body contours Replaces time-consuming, messy ice bags and hot water bottles Gives fast pain relief without drugs	Pain and swelling caused by bumps and sprains and for soothing muscle aches, stiffness and fever relief	4" x 10"

Surgical Tape

- **20204 3M TEGADERM #W3588 NEXCARE**
- **20205 3M TEGADERM #W3589 NEXCARE**
- **20206 3M TEGADERM #W3590 NEXCARE**

A thin, clear, sterile dressings that keeps out water, dirt and germs yet lets skin breathe.

ADVANTAGES	USES	SIZES
- Provides an excellent wound-healing environment - Helps prevent infection - Latex free - Hypoallergenic adhesive - Can be worn in shower or bat	- Light-to-Moderate wounds (minor wounds, cuts, scrapes and burns reddened, fragile skin; post-surgical incisions: minor skin tears and blisters.	4" x 4 3/4"

Stethoscopes

- **20166 3M BP KIT ANEROID & STETH NEXCARE**

Complete home blood-pressure measurement kit that is inexpensive, easy to use and maintain.

UNIQUE SELLING POINTS

- Gives accurate/reliable reading than mercury sphygmomanometer.
- More controllable in manual cuff inflation and cheaper than digital devices.
- Easy to use and convenient than mercury sphygmomanometer.
- Handy and Complete/Comes in an elegant pouch - Includes Stethoscope and Thermometer.

Product Description

Product: Nexcare Healthy Heart BP Kit
Size: 9.5" x 6" x 2.5"
Packing: 1 set

✓ Graduated compression improves circulation with maximum compression at the ankle that gradually decreases up the leg to provide a restoring feeling.
✓ Massages tired, achy legs as you move.
✓ Ideal for standing, sitting, travelling, or active office work; can also be used post-surgery.
✓ Materials are soft, smooth, and soothing for everyday activities.
✓ Open-toe design has a smooth, comfortable finish
✓ Comfort band helps prevent slipping.
✓ Reinforced heel adds durability.

Use for: More pronounced varicose veins, moderate anles swelling moderate/severe leg pain, chronic leg fatigue and heaviness.

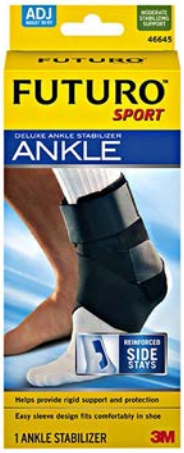
Material: Nylon, spandex
Color: Beige

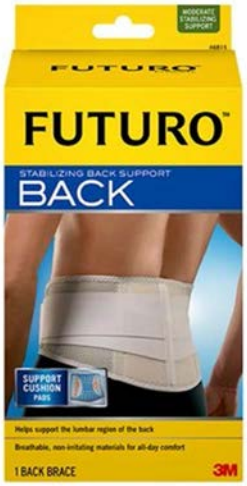
Joint Bandages

- **20148 3M FUTURO ANKLE STABILIZER ADJ DELUXE**

Provides strength, protection and rigid support to stiff, weak or injured ankles.

✓ Breathable, moisture-wicking, durable material for strong suport, soothing warmth and comfort.
✓ Reinforced side stabilizers help limit lateral motion.
✓ Adjustable closures for customized fit and support.
✓ Ankle straps lift and support arch.
✓ Easy sleeve design fits comfortably in shoe.
✓ Wraparound style is easy to put on and take off.
✓ Use on right or left ankle.





- **20160 3M FUTURO BACK SUPPORT L-XL**

Provides strength, protection and rigid support to stiff, weak or injured ankles.

✓ Breathable materials for all-day comfort.
✓ Support cushion pads helps target sore, aching muscles without placing pressure directly on the spine.
✓ Adjustable for customized fit and support.
✓ Sleek, non-bulky design will not restrict movement.
✓ Back panel evenly distributes moderate support.
✓ Helps promotes proper back alignment.
✓ Easy to put on and take off.

Joint Bandages

- **20173 3M FUTURO ELBOW SUPPORT ADJ 45975EN**
- **20174 3M FUTURO ELBOW SUPPORT MED 76578EN**

- ✓ Sleek sleeve design follows natural shape of arm and is discreet under clothing.
- ✓ Adjustable compression strap for customized fit and support.
- ✓ Dual stretch, power knit material is soft and breathable for optimal fit and comfort.
- ✓ Provides soothing warmth and compression.
- ✓ Soft-edge finishing for all-day comfort.
- ✓ Easy to put on and take off.
- ✓ Use on right or left elbow.

Provides support and relief to stiff, weak or injured elbows and forearms. It may also be used to help manage localized edema or, swelling.

- **20181 3M KNEE STRAP ADJACENT FUTURO 09189EN**

Designed to help relieve symptoms of irritated kneecap or tendonitis of the knee by providing gentle pressure to the tendons below the kneecap.

- ✓ Helps provide relief and compression
- ✓ Targeted pressure pad
- ✓ Provides comfortable support
- ✓ Adjustable strap and buckle for customized fit
- ✓ Soft-touch materials for comfort
- ✓ Wraparound style is easy to put on and take off
- ✓ Use on right or left knee

- **20187 3M KNEE SUPPORT MED STABILIZING FUTURO 46164EN**

Provides support to weak and sore muscles above and below the knee. Also permits movement without slipping or rolling.

- ✓ Dual-stretch material for optimal fit
- ✓ Open patella for kneecap support
- ✓ Helps provide relief and compression
- ✓ Dual side stabilizers provide extra stability to the knee without limiting movement.
- ✓ Comfortable, breathable, soft materials
- ✓ Comfort panel reduces bunching behind knee
- ✓ Sleek sleeve design follows natural shape of knee and is discreet under clothing
- ✓ Sleeve is easy to put on and take off
- ✓ Use on right or left knee

- **20223 3M WRIST SUPPORT WRAP AROUND FUTURO 46709EN**

Use for sprains, weak, injured wrists and repetitive stress injuries.

- ✓ Foam padding for optimal comfort
- ✓ Limits wrist motion and protects tender wrists
- ✓ Dual strap for adjustable fit and support
- ✓ Fits discreetly under clothing

• 1130055 BBRAUN STABIMED BOTTLE "GB/ES/PT/FR" 1000ML

-Cleaning and disinfection of invasive and non-invasive medical devices e.g. heat resistant surgical instruments,rigid and flexible endoscopes
-Active against bacteria, mycobacteria (M. terrae), levurocidal, enveloped and non-enveloped viruses (HBC/HCV HIV, Adeno-, Polyoma-, Rotavirus)
-Active ingredients: 20 g cocopropylene diamine per 100 g solution

Advantages

- ☑ Low working concentrations
  - 2% for 15 minutes
  - 1% for 30 minutes
  - 0.5% for 1 hour
- ☑ Recommended by Aesculap due to good material compatibility
- ☑ Free of aldehyde, phenol guanidinium and quaternary ammonium compounds
- ☑ May also be used in ultrasonic baths

• 1130057 BBRAUN SOFTAMAN BOTTLE (DP) "MY" 1000ML
• 1130058 BBRAUN SOFTAMAN BOTTLE "MY" 100ML

-Active against bacteria incl. MRSA, mycobacteria, fungi, enveloped viruses and rotavirus.
-Contains dexpanthenol, bisabolol and allantoin
-Active ingredients per 100ml solution: 45 g ethanol (100%) and 18 g propan-1-ol
-Tested according to EN 1275, prEN 12054/13727, EN 13624, EN 14348, EN 1500, EN 12791

Advantages

- ☑ The skin care compounds protect sensitive skin
- ☑ Application time for hand disinfection: Hygienic: 30 seconds / Surgical: 60 seconds
- ☑ Low risk of allergies

• 1130080 BBRAUN MELISEPTOL FOAM SPRAY 750ML

Disinfectant wipes for rapid disinfection

- For alcohol-sensitive materials - also ultrasonic probes
- No aerosol build-up when sprayed
- Perfume-free
- Short exposure time
- Dermatological test result: <<very good>>
- Also suitable for application in food area
- Listing: the DGHM/VAH list and the IHO-virucide list
- Applicable as impregnating liquid with the B. BRAUN Wipes

Applications:
Fully soak the areas with Meliseptol Foam pure and rub with a wipe. Keep the surface wet until the exposure time has elapsed. Do not wipe the surface dry. For exposure time, see table. The areas must not be wiped dry.

Micro-organism	Test Norms	Exposure Time
Surface disinfection Bacteria, yeasts (C. Albicans), enveloped viruses (incl. HBV, HCV, HIV, Vaccinia virus, BVDV) and Rotavirus	DGHM/VAH 2001 EN 1040, EN 1275, EN 1276, DV V/RKI*	Clean cond.: 1 min. (Dirty cond.: 2 min.)
Fungi (A. brasiliensis)	EN 13624	60 min.
Mycobacterial (M. Terrae)	EN 14348 EN 14563	3 min. 1min.
Avian Influenza-A-virus Rotavirus	D V V/RKI* D V V/RKI*	15 sec. 1 min.
Norovirus (MNV)	EN 14476	5 min.
Polyomavirus	D V V/RKI*	5 min.

Material Compatibility
To preserve the value of your high tech equipment:

- Perfusor Space and Infusomat Space
- Acrylic glass
- Ultrasound probes made by Philips/Hitachi/Aloka

• 1130073 BBRAUN MELISEPTOL WIPES SENSITIVE EU 19582

Disinfectant wipes for rapid disinfection

- Soft towels (15x20 cm) for rapid disinfection ofultrasound heads and other alcohol-sensitive
- Soaked with Meliseptol Foam Pure
- Very good material compatibility
- Soft, lint-free fabric quality, avoids scratching delicate surfaces
- Quick effective even against polyomavirus
- Dermatogically tested
- Aldehyde and amine-free; dye-free and without perfume
- Soaking liquid DGHM- /VAH listed and in the IHO Viruzidieliste

Specifications

Ready cloths soaked with Meliseptol Foam Pure
Disinfecting wipes in a practical dispenser or refill.
Aldehyde and amine-free
CE 0123
Dimensions linen 15.2x20 cm

Notes

Surfaces wipe, so that they are completely wetted with the drug solution. Areas may not be wiped dry

Use disinfectants safely. Always read the label and product information beore use.

Stoma Care

• 1130033 BBRAUN PROXIMA CLOSED P C-T-F FILTER BEIGE
• 1130034 BBRAUN PROXIMA CLOSED P C-T-F FILTER TRANSP

Proxima closed bags offer safety, comfort and easy to use.

Security:

-With an adhesive hydrocolloid barrier for skin protection
-Good distribution of the tensile force, which allows to maintain a safe position.
-The rounded shape of the bag without angles optimized collection of fluids.

Comfort:

-Greater flexibility
-Silent film odor-proof plastic.
-Improving the ability of deodorization through a filter that is based on technology laminar.
-No risk of bag balloon due to an integrated filter

- Skin protectant hydrocolloid
- Ergonomically shaped for comfort
- LT filter with a high degree of degassing and deodorizing
- Available in opaque or clear

Indications

one-piece closed for effluent collection bag who has undergone intestinal surgery colostomy type.

Measurements

Cut from 10 to 70 mm
Bag size: 195x150 mm
The capacity of the bag: 480 ml

- **1130035 BBRAUN PROXIMA DRAIN P C-T-F CLAMP BEIGE**
- **1130036 BBRAUN PROXIMA DRAIN P C-T-F CLAMP TRANSP**

Proxima is a cost-effective range of ostomy pouches. The skin protector of the Proxima drainable 1-piece pouches offers optimal skin protection, flexibility and comfort and is designed for frequent pouch changes. The pouches present a large outlet for ileostomy or colostomy stools evacuation.

- 100% full hydrocolloid skin protector for optima skin protection
- Cut-to-fit up to 70 mm, can be used in immediate post-op
- Odor proof plastic film + washable micro perforated backing material on the skin side of the pouch.
- Available in biege for more discretion, and transparent for visual control after surgery.
- Large drainable outlet of 7 cm for easier pouch emptying (ileostomy or colostomy stools) and cleaning of the outlet
- Reusable rigid clamp or single use soft adhesive clamps available

Indication: One piece drainable pouch for collection of body effluents for any person having undergone intestinal surgery of the enterostomy type.

- **1130040 BBRAUN PROXIMA2 DRAIN P FLEX CLAMP BEIGE 40**
- **1130041 BBRAUN PROXIMA2 DRAIN P FLEX CLAMP BEIGE 50**
- **1130042 BBRAUN PROXIMA2 DRAIN P FLEX CLAMP BEIGE 60**
- **1130043 BBRAUN PROXIMA2 DRAIN P FLEX CLAMP BEIGE 80**

Proxima is a cost-effective range of ostomy pouches. The Proxima2 drainable 2-piece.pouches have to be used with a Proxima 2 or Proxima 2 + base plate of corresponding size. The pouches present a large outlet for ileostomy or colostomy stools evacuation.

- Odor proof plastic film + washable micro perforated backing material on the skin side of the pouch
- Available in 40, 50, 60 and 80 mm
- Available in beige for more discretion, and transparent for visual control after surgery
- Large drainable outlet 7 cm for easier pouch emptying (ileostomy or colostomy stools) and cleaning of the outlet
- Reusable rigid clamp

Indication: One piece drainable pouch for collection of body effluents for any person having undergone intestinal surgery of the enterostomy type.

- **1130046 ADHESIVE CLAMP SMALL**

Small adhesive clamp for drainable stoma pouches.

- **1130048 BBRAUN PROXIMA2 UROSTOMY POUCHE TRSP 40MM**
- **1130049 BBRAUN PROXIMA2 UROSTOMY POUCHE TRSP 50MM**
- **1130050 BBRAUN PROXIMA2 UROSTOMY POUCHE TRSP 60MM**

Almarys Twin + Uro pouch is a two piece pouch for collection of urine of any person having undergone a surgery of the urostomy type. It provides patient:

- An anti- reflux valve to prevent back flow of urine
- A unique drain tap (increased security, increased comfort, easier handling)
- A universal connector to connect uine night bags
- Full hydrocolloid skin barrier
- Discreet flange incorporating belt loops
- Excellent locking system
- Release paper with printed cutting-target

Range of Application
Urostomy
Indication
Urostomy

- **290027 BBRAUN PROXIMA PLT 40MM**
- **290028 BBRAUN PROXIMA PLT 50MM**
- **290029 BBRAUN PROXIMA PLT 60MM**
- **290030 BBRAUN PROXIMA PLT 80MM**

Proxima® is a cost-effective range of ostomy pouches. The Proxima® standard flat base plate offers optimal skin protection and flexibility. The have to be used with a Proxima® 2 closed, drainable or urostomy or Proxima 2+ closed or drainable pouch of corresponding size.

- 100% full hydrocolloid skin protector for optima skin protection
- Easy-to-use locking system with audible click to make sure that the pouch is well attached to the base plate.
- Flat base plate, easy to clean, incorporating belt loops.
- Available in cut-to-fit, diameters 40/12-35 mm, 50/12-45 mm, 60/12-55 mm and 80/12-75 mm.
- Boxes of 10 base plates.

Indication: Two-piece base plates to be used with a corresponding pouch for collection of body effluents for an person having undergone surgery of the colostomy, ileostomy or urostomy type.

Wound Care

- **1130060 BBRAUN ASKINA BIOFILM TRANSP. 10X10CM**

Askina® Biofilm® Transparent is a thin sterile transparent hydrocolloid dressing fro moist wound treatment with the capacity to absorb residual exudate.

Advantages

- ☑ Thin design that fits any body contours
- ☑ Transparent, allows visual control of wound
- ☑ Easy to apply
- ☑ Stays in place during showering

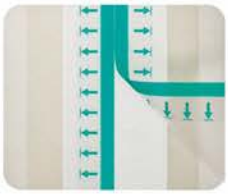
Indication

Management of low exuding superficial chronic wounds (pressure ulcers, leg ulcers), superficial acute wounds (1st and 2nd degree burns, abrasions) and post operative wounds.

- **1130061 BBRAUN ASKINA DERM 10X12CM**

Polyurethane film dressing

Askina® Derm® is a sterile transparent polyurethane film dressing. It is semipermeable and suitable for the protection of newly formed skin. It also prevents the formation of scabs.



Advantages

- ☑ Maintains a moist environment
- ☑ Easy to apply
- ☑ High MVTR film
- ☑ Low tack adhesive: non aggresive removal
- ☑ Impermeable to other liquids and bacteria
- ☑ Transparency: allows goof visual wound inspection

Application

1. Remove the printed release paper from adhesive side of the dressing.
2. Place the dressing over the wound site with the tabs on the adhesive side facing toward the wound. Gently apply pressure to the dresing as it attaches to the wound.
3. Slowly peel away the tabs and gently apply the reminder of the dressing to the surrounding dry skin.
4. Remove the plastic carrier by peeling the tabs in the direction of the arrows.

Indication

Protection of non exuding wounds such as stage I pressure ulcers, donor sites, minor abrasions, 1st degree burns, surgical wounds and lacerations.

- **1130069 BBRAUN ASKINA CARBOSORB 10X20 CM STERILE**

Askina Carbosorb
Carbon Bandage

Description

Askina® Carbosorb is a sterile wound dressing to reduce wound odor. It is made up of a non-woven absorbent wound contact layer and an active carbon layer that is capable to take up the odor and to hold.

- **1130018 BBRAUN ASKINA FOAM 20 X 20 CM**

Askina Foam is a two layered non-adherent dressings made from:
- A soft breathable hydrophilic polyurethane foam layer and has a high fluid capacity (199g / 100 cm3)
- A thin, transparent and protective polyurethane film, which is walter proof and bacteria resistant

Indication
Moderate to heavy exuding wounds:
- Stage I-IV pressure ulcers
- Venous and arterial leg ulcers
- Diabetic foot ulcers
- 1st and 2nd degree burns
- Traumatic wounds

Advantages
- ☑ Excellent fluid handling characteristics
- ☑ Cost efficient: no need for frequent dressing changes
- ☑ Enhances a moist wound environment
- ☑ Designed for allowing painless dressing changes
- ☑ Visual control of exudate absorption
- ☑ Designed for avoiding pressure marks when used under compression therapy
- ☑ Askina Foam Cavity is highly resistant: and easy to remove, without leaving any particles

Application
1. Askina Foam used on a heavily exuding flat wound: visual control of exudate absorption.
2. Large quantity of exudate is absorbed: vertical absorption, without maceration of the wound edges.
3. + 4. Combined use of Askina Foam Cavity, used to fill a deep highly exuding wound, and Askina Foam, used as an additional absorption dressing.

- **1130059 BBRAUN ASKINA SILNET 5 X 7.5CM**
- **1130067 BBRAUN ASKINA SILNET 10 X 7.5CM**

Askina SilNet is made of a conformable non-woven material, coated on both sides with silicone. Is used as a wound contact layer, it conforms to the wound surface and adheres safely to the surrounding skin. The wound site is protected from mechanincal disruption dressing changes. The use of **Askina SilNet** thus minimizes the trauma associated with dressing change.

Indication
Cuts and abrasions, skin tears, traumatic wounds, 1st and 2nd degree burns, fixation of skin grafts, donor sites, surgical wounds, lacerations.

Advantages
- ☑ Non-adherent: protects fragile granulation tissue
- ☑ Atraumatic dressing change
- ☑ Allows passage of exudate through the dressing
- ☑ Soft and comfortable
- ☑ Hypoallergenic
- ☑ Compatible with topical treatments

- **1130070 BBRAUN ASKINA BARIER FILM 28 ML**

Askina® Barrier Film is a long lasting protector for the persistomal skin. The product is available in the both spray and swabs. Askina® Barrier film products are easy to use, economic and safe.

The product does not contain any alcohol, making it completely sting free and therefore great fragile or damaged skin.

Thanks to its spray format, Askina Barrier film is easy to use, environmentally friendly and allows you to put the right amount of product right where you need it!

Askina Barrier film dries fast, so you will be able to apply your usual pouch 30 seconds after having applying the product!

- **1130071 BBRAUN ASKINA CALGITROL PASTE 15G**

Characteristics

Preparation Askina Calgitrol Paste is a well shapeable paste with the same matrix of alginate with silver ions, which comprises flat dressings **Askina Calgitrol Ag**. The consistency of the paste allows close contact with the wound bed preparation and the active presence of silver ions and alginate, which is especially valuable in case of difficuly to treat wounds, such as:

- second-degree burns
- chronic wounds (e.g. "diabetic foot")

Properties

- ☑ Very easy to shape alginate paste
- ☑ 100% silver in ionic form
- ☑ Acts agains a wide spectrum of microorganisms (including MRSA)
- ☑ Long-term protection against bacteria
- ☑ Maintains a moist wound environment
- ☑ Easily removed by rinsing

- **1130017 BBRAUN ASKINA CALGITROL AG 15X15 CM**
- **1130062 BBRAUN ASKINA CALGITROL AG 10X10CM**

Askina® Calgitrol® AG patented matrix formulation combines calcium alginate and silver alginate with 10% of bonded water. In contact with exudate, the alginate matrix forms a soft gel allowing the liberation of silver ions. Askina® Calgitrol® Ag is a technologically advanced wound dressing that incorporates the barrier effectiveness of ionic silver with the absorption capabilities of calcium alginate and polyurethane foam.

- ☑ Highly efficient
- ☑ No activation needed: ready to use
- ☑ Immediately active - significant reduction of bacterial load within first 30 minutes - Data on file.
- ☑ Active against broad spectrum of microorganisms, including MRSA
- ☑ Sustainable antimicrobial effectiveness for up to 7 days
- ☑ Atraumatic removal
- ☑ Non-staining

Indication

- -Pressure Ulcers
- -Venous and arterial leg ulcers
- -Diabetic foot ulcers
- -2nd degree burns
- -Traumatic wounds
- -Donor sites

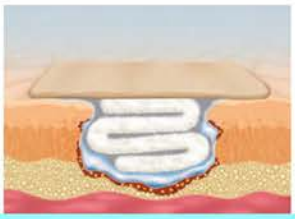
- **1130064 BBRAUN PRONTOSAN SOLUTION AMPULE "WEST" 6 X 40 ML**

Prontosan® Wound Irrigation Solution and Gel

- ☑ Aids in the thorough removal of dirt and debris from chronic wounds, skin ulcers and abrasions, even when surfaces are difficult to access, such as skin folds, fissures and wound pockets.
- ☑ Can be used during dressing changes to loosen encrusted dressings.
- ☑ Easy-to-use — no further preparation is required.
- ☑ Swabs or compresses can be saturated with Prontosan Wound Irrigation Solution and applied to wounds.
- ☑ Prontosan Wound Gel can also be used for cleansing and softening encrusted wound coatings.
- ☑ Prontosan Wound Irrigation Solution and Prontosan Wound Gel have a shelf life of 8 weeks after opening; no refrigeration needed.
- ☑ Product containers are PVC-free, DEHP-free and latex-free.

● Optimum Preparation

● Application in Shallow Wound



● Application in Deep Wounds/Dressing

- **1130065 BBRAUN PRONTOSAN WOUND-GEL X TUBE "INT" 250 GR**

Prontosan Wound Gel X
Highly viscous gel for acute, chronic and burn wounds

Description

Cleanses and moisturizes skin wounds and burns
Prevents the formation of biofilm

Advantages

- ☑ Removes and prevents the formation of biofilm
- ☑ Prevents infections
- ☑ Reduces healing time
- ☑ Facilitates gently dressing replacements
- ☑ Is compatible with commonly used wound dressings

Indication

Cleansing, moisturizing and decontaminating skin wounds and burns:

- Traumatic wounds
- Post-operative wounds
- Chronic skin ulcers (e.g. venous, diabetic or pressure ulcers)
- Thermal wounds
- Chemical wounds (acid-and alkali-induced)
- Radiation-induced wounds

Bandage and wound dressing moistening

- **1130066 BBRAUN PRONTOSAN WOUND-GEL BOTTLE "WEST" 30 ML**

Prontosan Wound Gel
The gel for acute, chronic and burn wounds

Description

Cleansing and moisturizing of skin wounds and burns
For the prevention of biofilm

Advantages

- ☑ Reduces healing time
- ☑ Removes and prevents biofilm
- ☑ Facilitates gentle dressing changes
- ☑ Is compatible with commonly used wound dressing

Indication

- Radiation-induced wounds

Moistening of bandages and wound dressings

- **290039 BBRAUN PRONTOSAN 350ML**

Prontosan® Wound Irrigation Solution, 350 mL Bottle "Only a Clean Wound Can Heal"

Description

- Prontosan Wound Irrigation Solution and Prontosan Wound Gel may be used together or independently
- Two effective ingredients combined to maximize cleansing power: PHMB & Betaine
  - ☑ PHMB(Polyhexanide) functions as preservative (also found in contact lens solution) that inhibits the growth of microorganisms with the product
  - ☑ Betaine(Surfacant) is a surface-active cleanser that provides immediate debridement
- Applied directly from the 350mL bottle providing selective mechanical debridement at 7 PSI
- Easy to use - no further preparation required
- Apply at every dressing change or per your facility's protocol
- Economical 8 weeks shelf life after opening

Antacids

- **1020519 GAVISCON 10ML SACHET X 24S**

Gaviscon Peppermint Liquid Sachet 10ml (24 Sachets)

Gaviscon was the first remedy of its kind available in Malaysia. It contains sodium alginate, which is naturally derived. It is classed as an alginate which means that it forms a protective layer over the stomach contents which helps to prevent coming back up into oesophagus (food pipe). As such, it is fast acting and has a soothing effect, lasting up to four hours. It is effective at treating the classic symptoms of heart burn (a burning pain in the chest and mild acid regurgitation).

- **1020520 GAVISCON TABLET 12 X 8S**

Gaviscon Peppermint Tablets 250

Gaviscon Peppermint Tablets 250 bring fast, soothing and long lasting relief from the pain and discomfort of heartburn and acid indigestion. They belong to a group of medicines called “reflux suppresants”.

Each chewable tablet contains 250mg alginic acid Ph Eur, 85mg sodium bicarbonate Ph EUr, 50mg aluminum hydroxide gel Ph Eur, and 12.5mg magnesium triscilicate Ph Eur as the active ingredients.

The tablet also contain mannitol (E421), calcium carbonate, xylitol (E967, povidone, magnesium stearate, sodium saccharin, peppermint oil and vanillin.

- ☑ Unlike other air fresheners and odor neutralizers that only mask odors temporarily, this product kills odor causing bacteria at the source
- ☑ Proven effective against even the toughest odors from bathrooms, pets, smoke and food
- ☑ Your family will enjoy fresh, clean-smelling air every day

- **1020535 LYSOL PH, N-AIR REJ MORNING LINEN 283G**

Lysol Neutra Air Sanitizing Spray Air Freshener, Revitalizing Fresh Breeze , 10 ounce

- ☑ Lysol Neutra Air Sanitizing Spray Air Freshener is unlike typical air freshners that only mask odors temporarily. This product destroys odors in the air and kills 99.9% of odor-causing bacteria at the source, so odors do not come back. Lysol Neutra Air Freshener is an aerosol sanitizing air freshener spray that cleans your air of bacteria and odors. Neutra Air is great to use indoors in the office, home, living room, kitchen, bathroom, bedrooms and more.
- ☑ Lysol Neutra Air Sanitizing Spray Air Freshener cleans the air of bacteria & their odors
- ☑ Sanitizing Air Spray eliminates tough odors such as: bathroom odors/pet odors/smoke odors/food odors
- ☑ Kills 99.9% of bacteria (when used as directed)
- ☑ Ultimate Freshness for a Healthy Home
- ☑ Destroys odors in the air and kills 99.9% of odor-causing bacteria at the source, so odors do not come back.

- **1020537 LYSOL PH, TO GO 1 OZ CRISPLINEN 28G**

Lysol Disinfectant Spray To Go can be used throughout your home or anywhere you travel

Benefits
- Kills 99.9% of viruses, bacteria and fungi
- TSA compliant
- Kills cold & flu viruses
- Disinfects hundreds of surfaces on the go
- Eliminates odors at the source

Sizes
- 1 oz travel size

Scents
- Crisp Linen

Surfaces

Lysol Disinfectant Spray to go can be used throughout your home surfaces:
- Toilet areas
- Sink areas
- Faucets
- Chainging tables
- Diaper bags
- Doorknobs
- Telephones
- Light Switches
- Public toilets
- Restaurant Table Tops
- Car upholstery
- Cup holders
- Hotel rooms

Germ Kill

Lysol Disinfectant Spray To Go eliminates the following on hard non-porous surfaces:
- Bacteria
- Viruses
- Fungi

Handwash

- **1020521 LYSOL PH LIQ HANDWASH FRESH 200ML (POUCH)**
- **1020522 LYSOL PH LIQ HANDWASH ORIGINAL 200ML (POUCH)**
- **1020523 LYSOL PH LIQ HANDWASH SKINCARE 200ML (POUCH)**

Lysol Anti-bacterial Skincare Hand Soap with Added Moisturiz rs 225ml.

- **1020527 LYSOL PH ANTIBACTERIAL HS 125ML ORIG PM**
- **1020528 LYSOL PH ANTIBACTERIAL HS 125ML SKIN PM**

Diagnostic Set Pocket

- **1070516 Welch Allyn LED LAMP UPGRADE KIT 3.5V DIAG 03100-LED**

Welch Allyn LED Replacement Lamps for Physical Assessment Instruments

- ☑ **Long life** backed by a 7-year warranty ensuring peace of mind and virtually eliminating inconvenient interruptions for lamp replacement.
- ☑ **SureColor™ LED technology** enabling reduction of intensity to alleviate glare or enhance patient comfort while preserving the color and clarity of the view.
- ☑ **High energy efficiency** resulting in 3X the examination time with each charge of a Welch Allyn rechargeable handle.
- ☑ **A simple solution** presented in four lamp upgrade kits compatible with our most popular physical assessment instruments.
- ☑ LED Lamps are not validated or recommended for use in any Welch Allyn instrument heads obsoleted before 2011.

- **1070517 Welch Allyn LED LAMP UPGRADE KIT 3.5V COAX 04900-LED**

Welch Allyn 04900 LED Replacement Bulb

Features:

- ☑ Tested to 30X halogen lamps
- ☑ Guaranteed 7 years
- ☑ 3X the on-time vs. halogen with Welch Alyn 3.5V rechargeable handles
- ☑ Lower operating temperature intended for greater patient/ clinician comfort

Fits Welch Alyn Traditional Opthalmoscopes including:

#11720 3.5V Coaxial Opthalmoscope
#11730 AutoStep Opthalmoscope
#11735 Prestige Coaxial Plus Opthalmoscope

- ☑ **Long life** backed by a 7-year warranty ensuring peace of mind and virtually eliminating inconvenient interruptions for lamp replacement.
- ☑ **SureColor™ LED technology** enabling reduction of intensity to alleviate glare or enhance patient comfort while preserving the color and clarity of the view.
- ☑ **High energy efficiency** resulting in 3X the examination time with each charge of a Welch Allyn rechargeable handle.
- ☑ **A simple solution** presented in four lamp upgrade kits compatible with our most popular physical assessment instruments.
- ☑ Lamp bases are date-stamped for easy warranty verification. Kits inlcude a lamp removal tool for easier replacement.

- ☑ Pocket Plus LED Otoscope is most durable, pocket-style otoscope on the market today, based on rigorous drop text versus leading competitors.

Ear Wash Systems

- **1070117 Welch Allyn EAR WASH SYSTEM**

Ear Wash System

Turn cerumen removal into a clean, quick, safe procedure with the first system to simultaneously irrigate and suction discharge using hydrovac action. With built-in safety features, the Ear Wash System is ideal for use on patients of any age.

- ☑ Eliminates messy outflow by automatically dislodging and disposing of cerumen.
- ☑ User controls monitor suction, water temperature and pressure
- ☑ Transparent tip directs outflow back to sink and away from you and your patient
- ☑ Can help reduce side effects like vertigo, nausea, and tympanic membrane damage

Nasal Illuminators

- **1070194 Welch Allyn NASOPHARYNX ILLUMINATOR**

- ☑ Halogen HPX Lamp that provides 30% more light output, for true tissue color and consistent, long lasting illumination.
- ☑ Fiber optic light transmission for cool distal light.
- ☑ Wide-angle rotatable mirrors with pilot aperture.
- ☑ Fully sterilizable with steam, water, gas and solutions

Nasal Speculums

- **1070192 Welch Allyn NASAL SPECULUM BIVALVE 26000**

- ☑ Halogen HPX Lamp light output for true tissue color
- ☑ Adjustable speculum facilitates removal of foreign bodies
- ☑ Fiber-optics project cool distal light
- ☑ Consistent, long-lasting illumination
- ☑ Autoclavable for complete sterilization

- **1070193 Welch Allyn NASAL SPECULUM ONLY 26535**

The 3.5V Nasal Illuminator from Welch Allyn is three instruments in one. It facilitates easy nasal examinations with halogen HPX illumination for true tissue color and a reusable tip. As a bonus, the head can be detached to use as a throat illuminator or penlight.

- ☑ Nasal Illuminator
- ☑ Halogen HPX Lamp
- ☑ Detach the head to use as a throat illuminator/penlight
- ☑ Nasal Illuminator Section requires Throat Illuminator Section (23857)
- ☑ 9.0mm Reusable Specula
- ☑ Fiber optics project cool distal light
- ☑ Power Handle Not Included

Otoscope Sets

- **1070112 Welch Allyn DIAGNOSTIC SET-POCKET JR**

Otoscope
Illumination: Halogen
Transmision: Fiber optic to distal tip
Batteries: 2 AA
Viewing Lens: Wide angle and renewable
Weight with Batteries: 132g (4.65 oz)
Height: 16.33 (6.43 in)
Handle Material: All metal construction
Insufflation Port: Yes

Opthalmoscope
Illumination: Halogen
Batteries: 2 AA
Viewing Lens: Glass condensing lens
Weight with Batteries: 129.5g (4.65 oz)
Height: 16.02 cm (6.31 in)
Diopter Range: -25 to +22
Handle Material: All metal construction
Apperture Positions: 6, including Silt and Fixation
Sealed: Yes
Filters: Cobalt Blue and Red-Free

BD

Canulae / Hollow Needle

- **130022 BD IV START PAK WTEGA#386170**

386170 - BD IV Start Pak™ with BD Persist™ skin prep, Tegaderm™ dressing (frame style) and accessories. (25/sp, 200/ca)

Accessories include:

1 - Tourniquet (contains no natural rubber latex)
2 - 2 in x 2 in. gauze sponge (5.1 cm x 5.1 cm)
1 - Roll Transpore™ tape (24 in. x 3/14 in.)
1 - Transparent Dressing
1 - Alcohol swab
1 - BD Persist Povidone Iodine Prep
1 - site label

Feature:
BD Persist™ skin prep provides one-step infection control w/up to 5 days anti-microbial effectiveness, Tourniquet contains no natural rubber latex.

Product Features:
Product Type: IV start kit
DNR(Latex)Free: Yes
Storage: Normal Conditions
Resterilize: No

- **130115 BD IV START PAK w/ PERSIST w/ GLOVES**

BD IV Start Pak™ with BD Persist™ skin prep, medium gloves, Tegaderm™ dressing (frame style), semipermeable dressing and accessories.

Accessories include:

2 - 2 in. x 2 in. gauze sponge (5.1cm x 5.1cm)
1 - Tourniquet (contains no natural rubber latex)
1 - Roll Transpore™ tape (24 in. x 3/4 in.)
1 - Transparent Dressing
1 - Alcohol swab
1 - site label

Our high quality products offer a convenient sterile kit with everything needed to ensure optimal outcomes for all peripheral catheter placements. BD Persist contains 70% alcohol and 10% povidone iodine formulated in a unique polymer base, forming a barrier on the skin.

Feature:
BD Persist™ skin prep provides one-step infection control w/up to 5 days anti-microbial effectiveness, Glove & Tourniquet contains no natural rubber latex.

Product Features:
Product Type: IV start kit
DNR(Latex)Free: Yes
Storage: Normal Conditions
Resterilize: No

Injection Syringes

- **130155 BD NEXIVA 24GA 0.56IN Y**
- **130156 BD NEXIVA 22GA 1.00IN Y**
- **130157 BD NEXIVA 20GA 1.00IN HF Y**
- **130158 BD NEXIVA 18GA 1.25IN HF Y**

Any disruption in the treatment process can affect your ability to provide quality care and can negatively impact the patient experience. That's why the BD Nexiva™ Closed IV Catheter System, the first of its kind, all-in-one closed system IV catheter, is designed to minimize the risk of IV catheter failure.

- Catheter's stabilization platform minimizes movement that can lead to catheter complications, restarts and associated costs.
- Proprietary BD Vialon™ Biomaterial enables longer dwell times, supporting the current infusion Nursing Standards of Practice for clinically indicated site rotation.
- Designed to minimize treatment delays and complications.
- Integrated systems need fewer add-on devices, minimizing the number of manipulations which may lead to touch contamination and accidental disconnections.
- BD Instaflash™ Needle Technology quick blood visualization may help improve insertion success, and therefore reduce insertion attempts.
- BD Vialon™ Biomaterial has been clinically demonstrated to dwell up to 144 hours.

Canulae / Hollow Needle

- **130035 BD VENFLON PRO SAFETY G22**
- **130036 BD VENFLON PRO SAFETY G20**
- **130037 BD VENFLON PRO SAFETY G18**

BD Venflon™ Pro Safety Shielded IV Catheter

- ☑ Developed to help minimize the risk of unanticipated blood splash and needle stick injuries.
- ☑ Robust needle tip protection - fully encapsulates needle tip.
- ☑ Ease of penetration (small or fragile veins).
- ☑ Reliable insertion characteristics.
- ☑ BD Vialon™ - Proven easy insertion and longer in dwell times.
- ☑ An award winning design for clinical best practice.
- ☑ Ergonomically designed to allow for a variety of user techniques and to aid insertion.

BD Insyte™ Autoguard™ Shielded IV Catheter

- **130012 BD INSYTE AUTOGUARD 20G**
- **130013 BD INSYTE AUTOGUARD 18G X 1 ¼**
- **130014 BD INSYTE AUTOGUARD 24G**
- **130015 BD INSYTE AUTOGUARD 22G**

- ☑ Provides safety and performance while enhancing the patient experience
- ☑ Push-button needle shielding
- ☑ Constructed with BD Vialon Biomaterial and BD Instaflash Needle Technology (20 to 24 gauge)

- **130097 BD INSYTE-W 24GX3/4**
- **130098 BD INSYTE-W 22GX1**
- **130099 BD INSYTE-W 20GX1-1/4 t**
- **130100 BD INSYTE-W 18GX1-1/4**

BD Vialon™, a unique proprietary biomaterial, has been proven to enhance clinical and economic outcomes.

- ☑ Increase the ease of penetration
- ☑ Reduces the risks of infiltration
- ☑ Exhibits greater kink resistance
- ☑ Reduces the risks of phlebitis up to 50%
- ☑ Reduces IV restarts due to reduced complications
- ☑ Increases indwelling time
- ☑ Reduces the total IV therapy costs to use due to longer indwelling time

Product Features:

Product Type: Peripheral Venous Catheter
DNR (Latex) free? Yes
Sterile? Yes
How sterilized: Ethylene Oxide
Feature: DEHP free, Does not contain natural rubber latex
Storage: Normal conditions

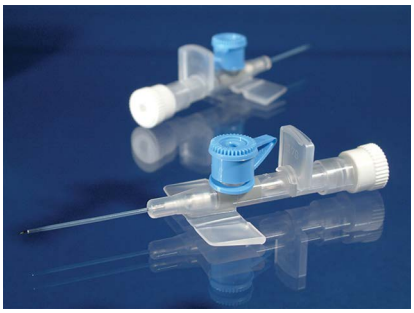
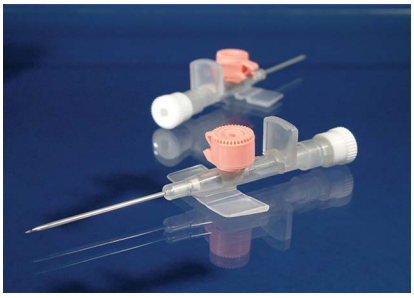
- **130027 BD IV CANN NEOFLON 24G**

- BD Neoflon Cannula
- Product Code: 391350/391349
- Available as 24Gx19mm
- (Straight IV Cannula for paediatric / neonatal use)
- Box of 50s

Suitable for patients with capillary brittleness, children and where a non-traumatic and delicate needle is requested.



Product Features:
Product Type: Ported Catheter
DNR (Latex) free? Yes
Sterile? Yes
How sterilized: Ethylene Oxide



- **130028 BD VENFLON 2 G22**

  391451 - 22 G x 25 mm BD Venflon Peripheral IV Catheter with Injection port. Sterile, single use. Blue (50/sp)

- **130029 BD VENFLON 2 G20**

  391452 - 20 G x 32 mm BD Venflon Peripheral IV Catheter with Injection port. Sterile, single use. Pink (50/sp)

- **130030 BD VENFLON 2 G18 391453**

  391453 - 18 G x 45 mm BD Venflon™ Peripheral IV Catheter with Injection port. Sterile, single use. Green

- ☑ BD Venflon intravenous catheter with integrated injection port and valve for peripheral catheterization.
- ☑ Permits needle-free administration of bolus medications during infusion.
- ☑ Back-cut needle bevel and tapered end of the PTFE catheter allows easier insertion and minimises the risk of vein damage.
- ☑ Wing position reduces the risk of bacterial contamination by preventing any direct contact between the rear of the catheter hub and the skin.
- ☑ BD Luer-Lok compatible

Infusion Systems

- **130020 BD Q-SYTE CLOSED LUER ACCESS**

The BD Q-Syte Luer Access Split Septum combines the convenience of a Luer access with the benefits of a split septum design to provide closed access for IV therapy. The benefits of this unique split septum design include reliable performance, high flow rates, and a visible fluid path.

- ☑ Smooth surface is easily cleaned prior to access.
- ☑ No crevices or gaps around the surface to harbor bacteria.
- ☑ Clear housing allows visual assesment of fluid path.
- ☑ Simple fluid path design reduces places for microbes to grow.

“When needleless systems are used, a split septum valve may be preferred over some mechnical valves due to increased risk of infection with the mechanical valves.” - CDC, April 1, 2011

Infusion Systems

- **130021 BD Q-SYTE EXT SET LUER-LOK**

The system BD Q-syte is a universal system without needle. It allows to carry out:

☑ IV infusions
- blood samples
- medication injections
- transfusions

☑ And makes flushing easier and faster

The valve closes automatically after disconnection from an infusion, injection or sampling device.

Composition:

✓ Sterile
Without latex

✓ Single use
✓ Length of the valve: 2 cm

✓ Wanted death: 1.14 ml
✓ Flow rate: 445 ml / minute

- **130125 BD Q-SYTE WITH BI EXTENSION SET**

Ultimate performance in closed luer access
In addition to the benefits of split-septum design, the BD Q-Syte device delivers optimal luer access performance. Because of its straight and unobstructed fluid path, the BD Q-Syte device provides:

- Dramatically higher flow rates 1
- Flexibility to use ISO-compatible luer slip or luer lock connection
- A low priming volume
- Needleless
- Dual access ports

- **130126 BD Q-SYTE WITH TRI EXTENSION SET**

Ultimate performance in closed luer access
In addition to the benefits of split-septum design, the BD Q-Syte device delivers optimal luer acess performance. Because of its straight and unobstructed fluid path, the BD Q-Syte device provides:

- Dramatically higher flow rates 1
- Flexibility to use ISO-compatible luer slip or luer lock connection
- A low priming volume
- Needleless
- Dual access ports

Injection Syringes

- **130004 BD POSIFLUSH SYRINGE 3ML SALINE FILL**

306573 - 3 mL BD PosiFlush S.P. saline syringe (NHS Code: FWC 123) (30/sp, 480/ca)

Product Features

Product Type: Flush syringe, saline
Sterile? Yes
Type: Syringe saline S.P. , 3 mL

Feature: Latex free, Preservative free
Product group: BD normal saline filled syringe
Storage: Controlled room temperature

- **130005 POSIFLUSH SYRINGE 5ML SALINE FILL -24-L100-306574**

306574 - 5 mL BD PosiFlush S.P. saline syringe (NHS Code: FWC0 127) (30/sp, 480/ca)

- Needleless
- Sterile
- Single use
- 10ml barel size = ideal barrel syringe size
- saves time and improves efficiency

- **130006 POSIFLUSH SYRINGE 10ML SALINE FILL -24-L100-306575**

306575 - 10 mL BD PosiFlush S.P. saline syringe (NHS Code: FW130) (30/sp, 480/ca)

- **130116 BD SOLOSHOT MINI 0.5ML 23X1 302245**
- **130121 BD SOLOSHOT MINI 0.05ML G27X3/8 302250**

Where multidose vials and syringes are indicated, BD SoloShot™ auto-disable syringes are ideal for large-scale immunization program.

- ☑ Designed with minimal dead space to reduce medication waste
- ☑ The same quality and dependability that you've come to expect from BD for both
- ☑ Intramuscular and Intradermal injections
- ☑ Meet ISO 7886-4 Type 1B requirements for passive reuse prevention

Injection Syringes

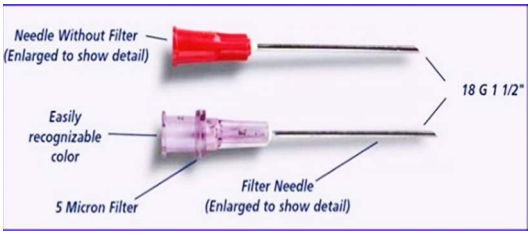
- **130153 BD DISP NEEDLE ECLIPSE 25X1-1/2 RB**
- **130154 BD DISP NEEDLE ECLIPSE 22X1 RB**

- ☑ Designed to ensure protection from needlestick injuries after injection
- ☑ Same safety mechanism as the proven BD Eclipse blood collection needle
- ☑ Unique SmartSlip technology helps to ensure a secure connection to Luer slip syringes
- ☑ Bevel oriented to safety cover accommodates low angle injections
- ☑ One technology for skin injection and blood collection
- ☑ Requires minimal change in injection technique
- ☑ The hub incorporates a plastic clip to encourage user to attach needle more securely to Luer slip syringe
- ☑ Wide textured finger pad provides safe activation area for thumb or forefinger
- ☑ Integral safety cover and extended sidewall to enhance protection
- ☑ Needle remains locked inside activated needle cover
- ☑ Activates with a touch of a finger - no hard surface required for activation
- ☑ Colour coded hub for easy needle size identification

- **130133 BD DISP NEEDLE FILTER BLUNT 18GX1-1/2**
- **130134 BD DISP NEEDLE BLUNT FILL 18gX1-1/2**



- ☑ Eliminates an unnecessary sharp
- ☑ 10 x the force to penetrate the skin, compared to a conventional needle
- ☑ Rapid filling, can cope with viscous medications
- ☑ Proven efficacy
- ☑ Cost-effective
- ☑ Specifically designed to safely bridge medication preparation and administration
- ☑ 5 micron filter captures 98% of particulate
- ☑ 45° bevel cut reduces coring of vial stopper
- ☑ Only 2.5x the force needed to penetrate a vial stopper

Sterile: No

Dimension: 13.5 in. x 13.75 in x 5.25 in.
Storage: Normal Conditions

305551 - 5.4 qt Clear Counter-balanced 10.75 in. x 12 in. x 4.5 (20/ca)

- **130002 BD SHARPS COLL NEXT GEN 5.4Q (inner)**

All BD Patient Room Collectors have visible fil level indicators and handles for sage transportation.

- ☑ Compatible with locking cabinets to provide security and prevent unwanted access to collector contents.
- ☑ Counterbalanced door facilitates hands-free disposal and is designed to reduce the potential of sharps injuries.
- ☑ Designed to improve tamper resistance by preventing hand access to the contents

Key Product Features:

Product Type: Patient room collector
DNR(Latex)Free: Yes
Resterilize: No
Safety Feature: Sharps collector
Sterile: No

Dimension: 10.75 in. x 12 in x 4.5 in.
Storage: Normal Conditions
Feature: Counter balanced doors, Next generation collector

- **130103 BD SHARPS COLL HUB CUTTER (305307)**

- ☑ Hub and needle of syringe were cut in one shot.
- ☑ Cuts needle at the hub no needle sharps remaining on the syringe after the cut.
- ☑ Separates needle and syringe at the point-of-use.
- ☑ Minimal splatter Puncture-resistant container.
- ☑ Encloses needles securely in the hard plastic container.
- ☑ Convenience does not require electricity to operate. It is manual
- ☑ Cuts and holds 400-600 needles, depending on needle size.
- ☑ Easy to dispose can be incinerated or buried in pit.

Alcohol Swabs

- **130024 BD PERSIST SINGLES**

386401 - BD Persist skin prep single swab (50/sp, 500/ca)

BD Persist contains 70% alcohol and 10% povidone iodine formulated in a unique polymer base, forming a barrier on the skin. The barrier creates a protective environment for the povidone iodine giving persistent protection against microorganisms most commonly associated with catheter related infections for up to five days.

BD Persist Protective Barrier is the ideal solution for efficiency, standardization, and compliance with best practices.

- ☑ Fast and easy one-step application
- ☑ One-step application eliminates variations associated with the common two-step procedure
- ☑ Applies and dries in 45 seconds
- ☑ Kills microorganisms immediately on contact

Product Features:

Product Type: Skin Prep
DNR(Latex)Free: Yes
Storage: Normal Conditions
Resterilize: No

Feature: BD Persist skin prep provides one-step infection control with up to 5 days antimicrobial effectiveness

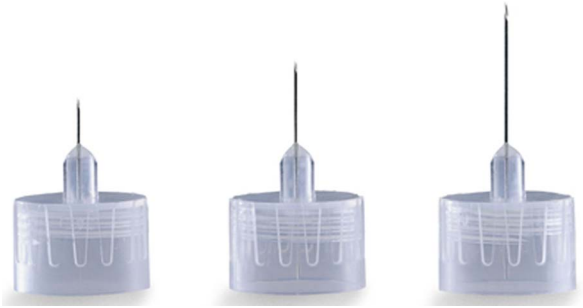
- **130096 BD ALCOHOL SWAB**

Thicker and softer than some other swabs, BD Alcohol Swabs ensure reliable site preparation for safe, hygienic insulin injections. BD™ Alcohol Swabs are also excellent for many other household uses.

- ☑ Individually foil wrapped for convenience
- ☑ 70% Isopropyl Alcohol for optimum anti-bacterial action
- ☑ Four layer wrapper provides air-tight seal which prevents leakage and drying out

Insulin Syringes & Injectors

- **130008 BD PEN NEEDLE 30G**
- **130009 BD PEN NEEDLE 31G (8MM)**
- **130010 BD PEN NEEDLE 31G (5MM)**
- **130123 BD PEN NEEDLE 31G (5MM) 10's**
- **130135 BD PEN NEEDLE 32X4 AP (4MM-PENTAPOINT)**
- **130136 BD PEN NEEDLE 32GX4 AP (4MM-PENTAPOINT) 10'S**



BD pen needles are available in boxes of 100 and can be used as replacement needles for al insulin pens and dosers.

- ☑ At 5mm, the BD Ultra-Fine™ III Mini pen needle is the shortest pen needle available
- ☑ The BD Ultra-Fine™ III Mini pen needle requires no pinch-up while injecting

- **130137 BD DISP SYR INS .3CC 31G 6MM SC (10'S)**
- **130142 BD DISP SYR INS .3CC 31G SC (10'S)**
- **130081 BD DISP SYR INS .5CC 29G BP**
- **130083 BD DISP SYR INS .5CC 30G BP**
- **130144 BD DISP SYR INS .5CC 30G SC (10'S)**
- **130138 BD DISP SYR INS .5CC 31G 6MM SC (10'S)**
- **130141 BD DISP SYR INS .5CC 31G SC(10'S)**

BD Insulin Syringes with Ultra-Fine™ Needle

BD

Insulin Syringes & Injectors

BD Insulin Syringes with Ultra-Fine™ Needle

- ☑ Disposable single use insulin syringes with permanently - attached nedle
- ☑ Polypropylene plastic suitable for medical use
- ☑ Latex free rubber stopper to avoid toxicity
- ☑ 30 degrees angle cut needle to reduce tissue trauma
- ☑ Electropolishes needle surface and micro-bonded lubrication to minimize pain
- ☑ No dead space design for higher accuracy and minimal wastage
- ☑ Large single scale markings and thin line plunger tip for accurate reading
- ☑ Available for different strenghts of insulin, U40 and U100
- ☑ ETO sterilized with a sterility assurance level {SAL} of 10

Lumbar & Spinal Puncture Accessories

- **130043 BD SPINAL NEEDLE 23GX31/2**
- **130044 BD SPINAL NEEDLE 27GX31/2**
- **130046 BD SPINAL NEEDLE 26GX31/2**
- **130047 BD SPINAL NEEDLE 25GX31/2**
- **130048 BD SPINAL NEEDLE 22GX31/2**

BD Spinal Needles are available with either a Whitacre point or a Quinckle point.

Whitacre Point Features:

- ☑ Designed to spread the dural fibers and help reduce the occurrence of post dural puncture headache
- ☑ Distinct “pop” as the pencil point penetrates the dura
- ☑ Precision-formed side hole helps directional flow of anesthetic agents and helps reduce the possiblity of straddling the dura
- ☑ Designed to track straight when advancing through ligaments toward the dura
- ☑ Translucent window hub features contact clarity that helps allow visualization of CSF
- ☑ Needle gauges 22 to 27 G.
- ☑ Needle lengths 1 in. to 7 in.

Quinckle Point Features:

- ☑ Key/Slot arrangement of stylet and cannula hubs facilitates proper needle bevel orientation
- ☑ Translucent window hub features contact clarity that helps allow visualization of CSF
- ☑ Fitted stylet reduces tissue coring
- ☑ Needle gauges 18 to 27 G.
- ☑ Needle lengths 1 in. to 7 in.

Inhaler & Aerosol Appliances

- **70004 MS NEBULIZER PENGUIN NEB**

- Penguin Style
- More suitable for children use
- Maximum nebulization rate > 0.20 ml/min.
- Maximum compressor pressure > 0.15 MPa
- Compressor free air flow: > 10 L/min.
- Noise: <65 db(A)

- **70027 MS NEBULIZER BEST NEB W/ TRIGGER CUP**

APEX BestNeb Compressor Nebulizer

A high quality aerosol compressor with contemporary, non-medical styling

Power: 110V/60Hz. 220V/50Hz
Dimensions: 11-1/4”(L) x 8-1/8”(W) x 4-3/8”(H)
Weight: 5.3lbs
Power Consumption: 100W
Max Pressure: 42 psi
Sound Level: 55 db
Particle Size: L 0.5 to 5 microns
Max Operating Time: 30 minutes

Anaesthetic Machines

- **6100002 MS ANESTHESIA MACHINE W/2 VAPORIZER ORICA9600**

A9600 Anesthesia Workstation

- ☑ 12.1” TFT LCD color touch screen, easy control of user interface by touch screen & navigator weheel.
- ☑ Standard Selectatec-compatible mounts hold two vaporizers.
- ☑ Electronic fresh gas flow display with traditional flow control knobs,
- ☑ GCX rail supports easy connection to other medical devices
- ☑ Absorber Compatible with Standard Prepaks and is steam sterilizeable
- ☑ Heated CO_2 absorber system, with independent CPU to control temperature at 35°C

Anaesthetic Machines

- **6100003 MS ANESTHESIA MACHINE W/2 VAPORIZER ORICA9800**

A9800 Anesthesia Workstation

- ☑ 15” TFT LCD with touch screen along with a navigator wheel provides a simple intuitive that enhances user control.
- ☑ Automatic Compliance compensation along with Fresh Gas Flow compensation help clinician to deliver accurate and precise ventilation therapy.
- ☑ Full waveform display including integrated Spirometry provides loops when desired for improved clinical data analysis.
- ☑ System provides a minimum of 25% O2 concentration at all times utilizing a pneumatic Oxygen Ratio Controller. This enhances patient safety over systems that utilize electronic or software controlled ORC functions.
- ☑ Large stainless worktable provides extra convenience to the user, with the flipup table design saving space efficiently.
- ☑ Impressive array of standards features improves the system usability: auxiliary oxygen flow meter with Air/O2 Blender and auxiliary AC power outlets.
- ☑ Air/O2 Blender for Aux Gas outlet is conveniently located on front panel to allow user to mix Aux Gas from 100% O2 to 21% O2 easily and accuratley.
- ☑ Breathing system is heated to reduce condensation and is integrated within the workstation.
- ☑ Advanced breathing system is fully autoclavable
- ☑ Absorber by-pass function makes changing absorbent during a case easier.
- ☑ Absorber is compatible with Standard Prepaks or loose-fill CO2 absorbent.
- ☑ Auto/Manual Switch is located on the breathing system for simple control of Ventilator On/Off.
- ☑ ACGO (Auxiliary Common Gas Outlet) switch is a standard feature to allow for use with non-breathing adapters.
- ☑ GCX-type rails support easy mounting of other devices to the workstation.
- ☑ 6 Traditional Gas Supply Pressure Gauges allow for easy status monitoring of hospital wall gas supplies and gas cylinders/tanks.
- ☑ 3 locking drawers for storage
- ☑ Standard Selectatec™ - compatible mounts hold two vaporizers.

- **280008 MS ANESTHESIA MACHINE ONLY DBLE SL210**

High Reliability Anesthesia Apparatus aimed for ease in use and safety, and with functions equivalent to large machines.

Oxygen Ratio Controller
O2 and N2O needles are mutually controlled by a special interlocking gear to ensure the minimum O2 concentration for fail-safe mechanism.

Each part of a respiratory circuit is movable. Direction of attachment part of the breathing bag, and the expiration and inhalation port can be freely set up, and workability is remarkable improved.

SURGICAL

Anaesthetic Machines

- **1990010 MS ANESTHESIA MACHINE W/ 2 VAPORIZER AEON 8600A**

- PCV and SIMV+PS modes ensure flexibility in ventilation, machine doable for both pediatric and adult operation
- Optional functions monitoring O2, CO2 and anesthetic gas
- Flowmeter provides minimum 25% concentration of oxygen in O2/N2O mixture
- Absorb system sterilized with high temperature and high pressure
- Enhances usability with auxiliary oxygen, suction, auxiliary power source, monitor arm, infusion pump etc.

Infant Incubators

- **1080000 MS INFANT INCUBATOR YD-F-285SCB**

- Humanistic design
- Touch-control panel
- Digital servo/manual control system
- Microprocessor control system
- Skin/Air control
- Anti-interruption design
- Auto self-test when turn on the power
- Unplugging skin probe automatically switches unit to air temp. control
- Made in Taiwan

YD-F-285 SCB + Optional accessories

1) Baby Scale
2) Double wall for I.C. hood
3) T type stand with 2 functional drawers
4) I.V. pole
5) Illumination
6) Oxygen Monitor & Controller, YD-OMC-2
7) Humidity Monitor & Controller, YD-HMC-33
8) Ultrasonic-Nebulizer

Item	Description
Control System	Digital Servo/manual control system Microprocessor control system Skin Air control
Display	LED Digital Display
Heater output indicator	0~5 Segments
Alarm system	1.) Sensor Failure 2.) over air temp. (47.3°C)(Standard) or (39.3°C 3.) Power Failure 4.) Motor Failure (air flow failure) 5.) auto timing re-alarm (15min/per interval)
Air/Skin temp. control range	Air: 25.0~37.0~ (standard) or 25~39°C Skin: 32.0~38.0°C
Air/Skin temp. display range	20.0~44.0°C
Air/Skin temp. resolution range	0.1°C
Air/Skin temp. Alarm range	SET = 1~3°C/ 0.3~1.0°C
Safety Air temp. limited	37.5~38.5°C (standard) or 39.5~40°C
Supersoft skin sensor	1.3 x 2.6mm
Motor noise level	Less than 52dB
Humidity	Up to 90% RH
Four casters	Front break
Mattress Area	63cm x 34cm
Voltage	110~120V or 220~240V (50/60 Hz)
Optional accessories	1. I.V. Pole 2. Oxygen Delivery System 3. Oxygen Head Hood 4. Baby Scale 5. X-ray Cassette Holder 6. Double Wall 7. Oxygen Monitor & Controller, YD-OMC-2 8. Humidity Monitor & Controller, YD-HMC-33 9. Ultrasonic-Nebulizer 10. Overhead Shelf 11. T type stand with 2 functional drawers 12. Electrical Auto-elevation of Central stand 13. UV Sterilizer, YD-P-311 14. Phototherapy Unit, YD-P-151MP

Phototherapies

- **1080002 MS PHOTO THERAPY UNIT YD-P-222MPD**
- **1080007 MS PHOTO THERAPY FLURO SINGLE + CRIB + MATT YD-P-222**
- **1080003 MS PHOTO THERAPY LED SINGLE YD-P-222MP**

YD-P-222MPD

- Patented design
- Microprocessor control system
- Illumination from top and bottom simultaneously
- Both lamps: non-sectionally height adjustable
- Upper lampshade: 5 angles for irradiation
- Effective light-condensing device
- User-friendly design, easy to maintain and repair
- All parts and accessories are formed by press, which ensures durability

Item	Description
Light source	Double side (upper and bottom)
Control system	Microprocessor contrl system (upper lampshade)
Display	LED Digital Display (upper lampshade)
Timer	Accumulative Timer (cumulative patient irradiation & lamp operation) (upper lampshade)
Hour meter	0~9999.9 hr. (bottom lampshade)
Lamp replacement	Auto-alarm for lamp replacement (upper lampshade)
Fluorescent tube	20W x 8pcs (white or blue)
Irradiation position	Adjustable upper lamp angle
Lampshade dimension	0°(horizontal), 22.5°, 45.0°, 67.5°, 90°(vertical) L75 x W26 x H11cm

Item	Description
Unit dimension	L65 x W46 x H126 ~ 156cm
Effective adjustable height	Non-sectional (upper and bottom lampshade) (upper: 115 ~ 145cm)
Quiet operation of cooling fans	volume <50db.
Cooling air flow volume	1200 ~ 1750 L/min.
Lamp protection screen	Tool-free insertion and removal
Lampshade and lamp stand	Lampshade and lamp stand (mobile stand with four swing castors, safe and stable) are formed one-piece, no risk of lampshade falling-off the stand
Baby crib	Stainless steel framce, height adjuster, therapy enhance cloth etc.
Eye-shade protector	2 pairs
Voltage	110 ~ 120V or 220 ~ 240V, 50/60Hz
Power consumption	320W

Microscopes

• 700001 MS MICROSCOPE-BINO OLYM CX31

The CX31 offers improved all around performance and greater cost efficiency. It is ergonomically designed with low positioned coarse & fine focusing controls and convenient hand grips at the front back. The ergonomic binocular head is inclined 30° for comfort viewing and has an interpupillary distance adjustment range from 48 - 75mm.

- ☑ Newly-developed infinity corrected Plan C Achromat objectives offer exceptional flatness producing sharp clear images right up the edge of the field of view(4x 10x 40x 100x oil)
- ☑ Anti-fungus treatment helps protect optical parts even in high humidity regions
- ☑ Inward-facing, quadruple revolving nosepiece improves acces and makes for quick, easy slide changes
- ☑ Fixed Abe condenser N.A. 1.25, centerable and focusable for Kohler illumination
- ☑ A plano-concave mirror for brightfield observation
- ☑ A 6V/30W halogen bulb provides ample illumination for any observation
- ☑ Built-in right hand stage with rackless design, low positioned X, Y controls with ergogrips to facilitate operation

Gross Weight: 9kg/20lb
Net Weight: 7.3kg/16.1lb

• 4000009 MS ECG MACHINE 303i 3 CHANNEL W/ ANALYSIS

Care Vision 303i Compact 3-Channel Electrocardiography
Easy-To-Use, Cost-Effective With Fast and Advanced ECG Analysis

- Simultaneous acquisition of up to 12 leads
- Real-time continuous recording of 3.6 channels
- Color TFT LCD for ECG waveform, messages and setup menu
- Data storage in internal memory / Optional data storage on SD card
- Stored ECG's can be exported via RS-232, LAN and SD Card to PC (with ECG Management System software) for printing and archiving
- East and fast firmware upgrade through USB memory stick
- Z-fold and Rolling paper, both are available

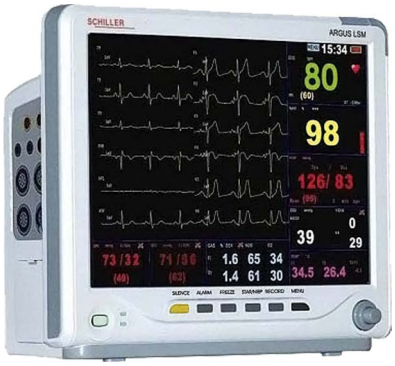
• 4000022 MS ECG MACHINE 512i 12 CHANNEL W/ ANALYSIS

Care Vision 512i 12-Channel Electrocardiograph
12 Channel Interpretive Resting ECG with Color LCD Touch Screen

- Convenient A4 size Print-outs allow for easy chart filing
- Grid function allows you to use low cost plain fax paper
- One-touch operation (monitoring, recording mode)
- 12 CH simultaneous display
- Wide and Clear Color TFT LCD Touch Screen
- Rotary Key Access to all menu
- Over 130 kinds of interpretation results based on advanced Minnesota code
- Memory for up to 120 patients
- Real-time preview monitoring
- PC compatible through LAN
- Pace maker detection

• 850008 MS PATIENT MONITOR SCHILLER ARGUS LSM15

SCHILLER ARGUS LSM
Multi-Parameter Patient Monitor



- 15" High-Resolution TFT Display
- Rechargeable Lithium Battery
- Large Alarm Indicator
- ST Segment Measurement
- Stores 128 Groups of Arrhythmia Data (8 seconds ECG Waveform)
- Stores & Reviews 168 Hours of Trend Data
- Standard Configuration : ECG, HR, RESP, NIBP, SPO2, 2x TEMP, Lithium Battery
- Option : 12 Lead ECG, 2nd BP, EtCO2 (Side/Main Stream), Anesthesia Gas, Impedance Cardiography ICG, SD Memory Card.
- Option : Wired and Wireless Central Monitoring Station

ECG Machines & Accessories

• 2320007 MS PATIENT MONITOR-AMBULANCE+TOUCH SCREEN+RECORDER FD-M99C

- Multi-display interface
- Support 14 languages
- Visual and audible alarms
- Wire and wireless network
- Built-in rechargeable battery
- Neonatal and pediatric measurement modes
- Arrhythmia analysis and ST segement analysis
- Unique blood pressure measurement technique
- Anti high-frequency electrotome and defibrillation, digital filter
- 10” high resolution color TFT display (Touch screen as option)
- 720 hours trend data. 100 NIBP data storage, 200 alarm event data storage and 12 hours waveform review.

• 4000003 MS PATIENT MONITOR MQ5

- Modular design for maximum flexibility
- 2 standard module slots for easy device upgrade and configuration
- High-resolution 12.1” TFT touch display
- RJ45 Ethernet, VGA and USB ports for networking, external display and keyboard/mouse
- Options: 12-lead ECG, 2-IBP, Nellcor Sp02, Masimo Sp02, EtC02 (side/micro/mainstream) Anesthetic Gas Cardiac Output, 3 Channel printer, SD Memory Card, Wireless Networking for Central Monitoring

• 4000004 MS PATIENT MONITOR MQ7

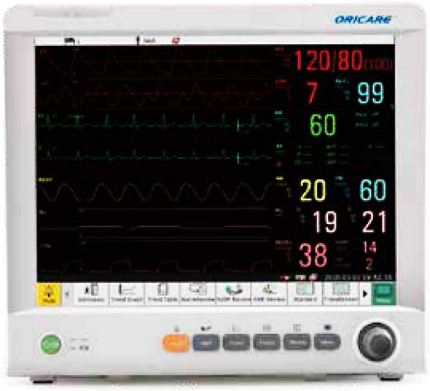
- Modular design for maximum flexibility
- 3 standard module slots for easy device upgrade and configuration
- Vertical display format for more physiologic waveform
- High-resolution 15” TFT touch display
- RJ45 Ethernet, VGA and USB ports for networking, external display and keyboard/mouse
- Options: 12-lead ECG, 2-IBP, Nellcor Sp02, Masimo Sp02, EtC02 (side/micro/mainstream) Anesthetic Gas Cardiac Output, 3 Channel printer, SD Memory Card, Wireless Netwworking for Central Monitoring

Patient Monitors

• 4000025 MS PATIENT MONITOR E300

- 7 inch High Resolution (800x 480) with maximum 7 wave forms
- Standard Configuration: ECG, SpO2, NIBP, Resp, 1 Temp
- 6 Kinds of Virtual Screen
- 3 CH ECG; Full 7 ECG & ST Segment analysis (Lead I, II, II, aVR, aVL, aVF, V)
- 13 Arrhythmia Analysis & Pace make Detection
- 7 days tabular and Graphic Trend Data Storage
- Patient Information, NIBP VENOUS STAT
- Easy Software Upgrade Using SD card (Max 8G)
- Durable Li-ion Battery (1PACK: Over 3 hours)
- LAN and Wireless :LAN Connection E
- Respronics Mainstream (C5) Sidestram (LoFIO)
- Touch Screen (Option).

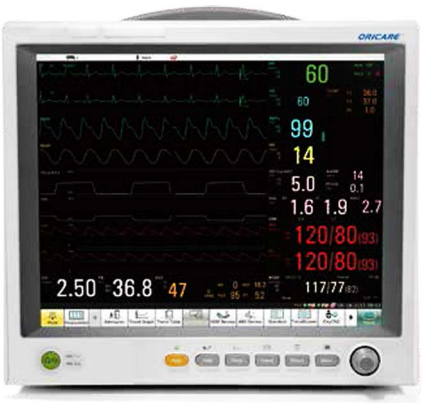
• 6100004 MS PATIENT MONITOR M7610+NBP WIRELESS ORICARE



- 15” high-resolution color TFT-LCD Display with Touchscreen showing up to 13 waveforms
- Intuitive Touchscreen User Interface – click on parameter or waveform to configure it
- Arrhythmia and S-T segment analysis
- Pacemaker detection, electrosurgical interference proof
- Defibrillator protection and de□brillator synchronization
- HL-7 Network and Electronic Record support via XML files
- SD card slot for data storage and easy data transfer
- Bi-directional network communication, bed-to-bed view
- VGA output for remote Video display
- Nurse call function, Barcode scanner interface
- Rechargeable battery – operates for 4 hours minimum
- Suitable for Adult, Pediatric and Neonatal patients

• 6100022 MS PATIENT MONITOR M7810 ORICARE

- 17” high-resolution color TFT-LCD Display with Touchscreen showing up to 15 waveforms
- Intuitive Touchscreen User Interface – click on parameter or waveform to configure it
- Plug and Play modules – Main unit holds multi-function XM1-J moduleplus 3 single-wide modules in integrated rack PAM module rack holds 8 single-wide modules
- Arrhythmia and S-T segment analysis
- Pacemaker detection, electrosurgical interference proof
- Defibrillator protection and de□brillator synchronization
- Supports up to 8 IBP channels
- HL-7 Network and Electronic Record support via XML files
- SD card slot for data storage and easy data transfer
- Bi-directional network communication, bed-to-bed view
- VGA/DVI output for remote Video display
- Nurse call function, Barcode scanner interface
- Rechargeable batteries – operates for 2 hours typical
- Suitable for Adult, Pediatric and Neonatal patients
- Night mode for ICU and NICU use



Patient Monitor Accessories

- **4000020 MS VITAL SIGNS MONITOR+NIBP+SP02+TEMP VS110**

  - Enhanced NIBP, Temperature and SpO2 accuracy
  - Compact design (increasing mobility)
  - User friendly interface (data output-USB)
  - Built-in rechargeable battery
  - Adult, Pediatric and Nenate application
  - Internal thermal printer (option)
  - Alarm system

Ear Studs

- **940001 MS EAR STUD-01JANUARY STUDEX M201Y**

  January (Garnet-PR-201Y)

  Product Name: Studex Plated Bezel Set Birthstone Earrings
  Brand Name: Studex
  Quantity: 1 pair
  Color: Gold Plated
  Sub Category: Birthstones
  Type: Bezel

- **940002 MS EAR STUD-02FEBUARY STUDEX M202Y**

  February (Amethyst-PR-202Y)

  Product Name: Studex Plated Bezel Set Birthstone Earrings
  Brand Name: Studex
  Quantity: 1 pair
  Color: Gold Plated
  Sub Category: Birthstones
  Type: Bezel

- **940003 MS EAR STUD-03MARCH STUDEX M203Y**

  March (Aquamarine-PR-203Y)

  Product Name: Studex Plated Bezel Set Birthstone Earrings
  Brand Name: Studex
  Quantity: 1 pair
  Color: Gold Plated
  Sub Category: Birthstones
  Type: Bezel

- **940004 MS EAR STUD-04APRIL STUDEX M204Y**

  April (Crystal-PR-204Y)

  Product Name: Studex Plated Bezel Set Birthstone Earrings
  Brand Name: Studex
  Quantity: 1 pair
  Color: Gold Plated
  Sub Category: Birthstones
  Type: Bezel

- **940005 MS EAR STUD-05MAY STUDEX M205Y**

  May (Emerald-PR-205Y)

  Product Name: Studex Plated Bezel Set Birthstone Earrings
  Brand Name: Studex
  Quantity: 1 pair
  Color: Gold Plated
  Sub Category: Birthstones
  Type: Bezel

- **940006 MS EAR STUD-06JUNE STUDEX M206Y**

  June (Alexandrite-PR-206Y)

  Product Name: Studex Plated Bezel Set Birthstone Earrings
  Brand Name: Studex
  Quantity: 1 pair
  Color: Gold Plated
  Sub Category: Birthstones
  Type: Bezel

- **940007 MS EAR STUD-07JULY STUDEX M207Y**

  July (Ruby-PR-207Y)

  Product Name: Studex Plated Bezel Set Birthstone Earrings
  Brand Name: Studex
  Quantity: 1 pair
  Color: Gold Plated
  Sub Category: Birthstones
  Type: Bezel

- **940008 MS EAR STUD-08AUGUST STUDEX M208Y**

  August (Peridot-PR-208Y)

  Product Name: Studex Plated Bezel Set Birthstone Earrings
  Brand Name: Studex
  Quantity: 1 pair
  Color: Gold Plated
  Sub Category: Birthstones
  Type: Bezel

SURGICAL

Ear Studs

- **940009 MS EAR STUD-09SEPTMBR STUDEX M209Y**
  September (Sapphire-PR-209Y)

Product Name: Studex Plated Bezel Set Birthstone Earrings
Brand Name: Studex
Quantity: 1 pair
Color: Gold Plated
Sub Category: Birthstones
Type: Bezel

- **940010 MS EAR STUD-10OCTOBER STUDEX M210Y**
  October (Rose-PR-210Y)

Product Name: Studex Plated Bezel Set Birthstone Earrings
Brand Name: Studex
Quantity: 1 pair
Color: Gold Plated
Sub Category: Birthstones
Type: Bezel

- **940011 MS EAR STUD-11NOVEMBR STUDEX M211Y**
  November (Topaz PR-211Y)

Product Name: Studex Plated Bezel Set Birthstone Earrings
Brand Name: Studex
Quantity: 1 pair
Color: Gold Plated
Sub Category: Birthstones
Type: Bezel

- **940012 MS EAR STUD-12DECEMBR STUDEX M212Y**
  December (Blue Zircon-PR-212Y)

Product Name: Studex Plated Bezel Set Birthstone Earrings
Brand Name: Studex
Quantity: 1 pair
Color: Gold Plated
Sub Category: Birthstones
Type: Bezel

- **940013 MS EAR STUD-BALL STUDEX R200Y**
  Studex Gold Plated Regular Gold Ball (PR-200Y)

Product Name: Studex Gold Plated Regular Gold Ball
Brand Name: Studex
Item #: 8716
Quantity: 1 pair
Color: Gold Plated

- ☑ Bezel setting
- ☑ Regular stud size
- ☑ Gold plated stainless steel
- ☑ Sterilized
- ☑ For sensitive ears
- ☑ Use with Studex after piercing products
- ☑ Made in USA

- **940014 MS EAR STUD-FLOWER STUDEX R508Y**

- **940016 MS EAR STUD-PEARL STUDEX R301Y**

- **940020 MS EAR STUD-WSTAR STUDEX R501Y**

- **940021 MS EAR STUD-WTRIANGLE STUDEX 504Y**

- **940022 MS EAR STUD-ZIRCONIA STUDEX M100Y**

Ultrasound Machines & Accessories

- **950064 MS GEL-ULTRASND 5L MIBO**

- Non-irritating to human skin, no allergies
- Non-toxic, Fragrance, Ultrasonic Transducer (probe) Zero or Zero Corrossion Damage
- Lubrication Performance, Easy to use
- Good coupling performance, Clear images
- Non-irritating odor, no side effects
- Easy to Use

Product Standard: 5 Litre
Product Brand: MIBO
Country of Origin: Shenzhen China
Product Scope of Practical: ultrasound diagnostic instrument examination and diagnosis

Laryngeal Masks

- **5300021 MS LARYNGEAL MASK AIRWAY #1.0 STRL NCS-712-7**
- **5300022 MS LARYNGEAL MASK AIRWAY #1.5 STRL NCS-712-6**
- **5300023 MS LARYNGEAL MASK AIRWAY #2 STRL NCS-712-5**
- **5300024 MS LARYNGEAL MASK AIRWAY #2.5 STRL NCS-712-4**
- **5300025 MS LARYNGEAL MASK AIRWAY #3 STRL NCS-712-3**
- **5300026 MS LARYNGEAL MASK AIRWAY #4 STRL NCS-712-2**
- **5300027 MS LARYNGEAL MASK AIRWAY #5 STRL NCS-712-1**

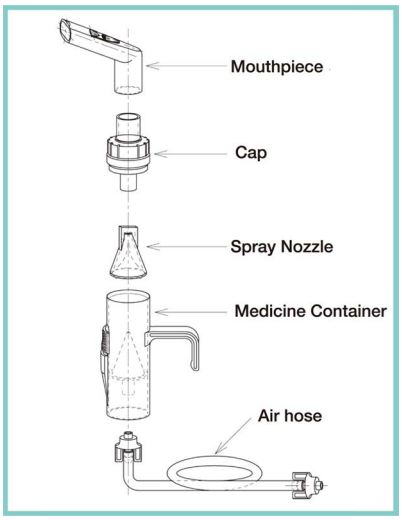
EasySeal™ Enco Laryngeal Mask Airway

- Crush resistant tube integrates handiness and softness.
- Elastic material ensures the best possible seal with least internal pressure.
- Tube construction allows access of suction catheter or endoscope.
- Packaged sterile and ready for use.
- Medical grade PVC.

Inhaler & Aerosol Appliances

- **280170 MS NEBU-COM KIT BLUECROS CN-KT**

- For adults and children
- Average particle size of 1~8um
- Handy ON/OFF switch
- An effective and reliabel nebulizer



- **280172 MS NEBULIZER "NEBU-COM" CN-AC**

- Nebulizer Kit with ON/OFF hand switch, can be used while titled
- Made of environmentally friendly polysulfone
- Runs on quiet, high-power brushless DC motor
- Power switch is moisture resistant, and has anti-bacterial casing, and Nebu-Com housing

- **280173 MS NEBULIZER "NEBU-COM"- MINI**

- Designed for minimal sound and vibration
- Filter is both at inlet and outlet of the air for double safety
- Energy sabing model
- The atomizer (Neb-Com kit) effectively 1~8um particles
